Procedure for Receiving a Rack or Locker Grant

The following steps outline how to participate in the Rack or Locker Program:

- 1. Determine a location for your bicycle parking. Parking should be reasonably close to your business or office entrance, preferably closer than the nearest car space. Bicycle parking generally requires at least a 60" X 74" space, so use this measure as a reference, and refer to the specifications contained in this packet if you have more space than that. If the desired location is on publicly owned land (city parking lot, sidewalk, etc.), then an encroachment permit may be necessary; call Transportation Agency for assistance (831-775-0903). If you would like to reduce one automobile parking space to add bicycle parking (bicycle corral), the Transportation Agency may write a letter in support of your application for any permits necessary for this reduction in automobile parking.
- 2. Determine what sort of parking device will best meet the needs of your business or agency. Will employees or customers be using them? Will the racks be used for long or short periods of time? How secure, in terms of access and visibility, is the probable location of the bicycle parking?
- 3. Submit a photo and sketch a layout of the proposed parking locations and complete the attached Agreement to place bicycle rack(s) and or locker(s). Please also complete the attached Application form.
- 4. Sign and submit the Agreement with the Transportation Agency, promising to install, maintain and be responsible for the equipment requested.

 - Program Application
 - Signed agreement to place bicycle racks and provide pre-installation and post-installation photographs.

- Site photographs and Map
 - Data on before and after bicycle usage (counts) at your business/organization, photos
 of bicycle parking practices in the vicinity of the proposed site and support letters are
 strongly encouraged but not required.
- 6. Transportation Agency staff will review all application materials within three weeks and followup with any questions. Agency staff will then submit a recommendation to the Bicycle and Pedestrian Facilities Advisory Committee for approval.
 - Note: Bicycle Secure Program Grant Applications will be reviewed on a first-come first-serve basis until the annual budget runs out. In an effort to ensure equitable distribution of equipment, applications seeking multiple parking racks, lockers, or repair stations may receive a partial award of the requested equipment.
