4. **PROVIDE** feedback on the proposed count locations for the 2011 regional traffic counts program – Zeller **Pages**

The Regional Traffic Counts Program monitors traffic volumes twice per year on Monterey County roadways. This contract with Quality Traffic Data, selected by a competitive bid, is lower cost than previous agreements. The collected data is used in planning, such as the fee program, provides information for the regional model, and helps to secure state funding.

5. **REVIEW AND COMMENT** on the construction management on-call consultant scope of work; and **FORM** a subcommittee to review and rank statements of qualifications received and participate in consultant interviews as necessary. Myers **Pages**

The current on-call consultant list for construction management was approved on March 25, 2009 for a period of two years and a renewal of the list is required at this time. The proposed scope of work will be included in the request for qualifications process used to solicit consultant proposals for this work. Staff will return to the Board with a list of selected consultants for approval. The availability of ready to use on-call consultants will maximize member agencies resources should funding become available for local transportation projects in our area.
