

TRANSPORTATION AGENCY FOR MONTEREY COUNTY

## ***Memorandum***

**To:** Impact Fee Task Force  
**From:** Michael Zeller, Transportation Planner  
**Meeting Date:** July 20, 2007  
**Subject:** **County Proposal for G12**

---

### **SUMMARY**

The County of Monterey has requested that the Transportation Agency consider including improvements to segments along County Road G12 in the regional development impact fee program.

Due to the lack of project cost and segment information prior to the impact fee consultant conducting the select link analysis, the G12 project was not included in these model runs used to determine origin / destination trips and corresponding project costs attributable to each zone.

At the County's request, we will discuss this project during the impact fee task force meeting on July 20, 2007 for possible inclusion in the regional development impact fee program.
