TOTAL EXPENDITURES	\$ 1,068,841.55
FUND BALANCE, END OF PERIOD	\$ 5,626,891.24

Project Report for Measure X Expenditures

1. Bridge Preventive Maintenance Project (Methacrylate/Polyester Overlay) \$362,629

The purpose of the project was to rehabilitate the bridge decks of 16 bridges located throughout the County with methacrylate or polyester concrete. The project also repaved several bridge approaches and replaced bridge joint seals as well. The project was funded by FHWA HBMP (88.53%) and Measure X provided the local match (11.47%).

Before and after the rehabilitation of Big Sandy Road bridge deck

Elkhorn Road Bridge Approach and bridge deck Rehabilitation

2. Schulte Road Bridge No. 501

\$9,665

The project replaced a 54-year old, one lane bridge on Schulte Road over the Carmel River. The old bridge did not meet Caltrans seismic, structural, and geometric standards nor meet current American Association of Safety and Highway Transportation Officials (AASHTO) geometric standards for rural roadways. The project was built over two construction seasons given the limited construction-time window dictated by the regulatory agencies to protect the sensitive habitat and wildlife in the area. The project was primarily funded by FHWA HBP (88.53%) and Measure X provided local matching funds and the funds to complete the revegetation monitoring and reporting to the regulatory agencies.

Successful revegetation along the banks of the Carmel River following the replacement of the Schulte Road Bridge.

3. Gonzales River Road Bridge Superstructure Replacement

\$9,755

The project proposes to replace the Gonzales River Road bridge over the Salinas River. The existing bridge is a multi-span bridge that is 1660 feet long and 20 feet wide. The proposed bridge will be 1661 feet and 44 feet wide using the existing substructure that was retrofitted in 2002. The last two spans on the westerly side of the bridge will also need to be replaced to accommodate the 100-year flood flows. The bridge approaches will need to be realigned and widened to match to the new bridge.

The project is funded by FHWA HBMP (88.53%) and Measure X provided the local match (11.47%). The project is in the preliminary engineering and environmental documentation phase. This phase is expected to be completed next fiscal year.

Existing Gonzales River Road bridge

4. Monterey Bay Sanctuary Scenic Trail - Moss Landing Segment

\$5,751

The project proposes to construct a Class 1 bike/ped path along State Route One between Moss Landing Road and the North Harbor of Moss Landing. As part of the project a new 386-foot long bridge, parallel to the State Highway One bridge, will be constructed to cross the Elkhorn Slough. The project is in the right-of-way and permitting phase. The Project is funded by a variety of Federal, State and Local funds. The Measure X contribute to the local match for federal grants.

At the southern limit of the Moss Landing Segment the trail will be located between Moss Landing Harbor and Moss Landing Road.

North end of project looking south toward Moss Landing Harbor. The Elkhorn Slough Bike Bridge will span Elkhorn Slough parallel to the existing State Route 1 Bridge. The Elkhorn Slough Bike Bridge will include rest area to stop and enjoy the scenery.

5. FY 17 PAMP Rehabilitation/Overlay Project

\$444,502

The pavement was rehabilitated on four road section in Monterey County. The four road sections were Jolon Road between Pine Canyon Road and US Highway 101, Carpenter Street east of State Route One, the intersection of Reservation Road and Blanco Road, and the southerly portion of Pajaro Street in Castroville. The County JOC process was utilized to deliver these four project in an expedited fashion to provide immediate repair to the dilapidated road sections. The Measure X funds were used in conjunction with County General funds to maximize the extent of the repairs.

Before and after Rehabilitation of Jolon Road section

Carpenter Road near Carmel

6. Las Lomas Drainage

\$99,291

The Las Lomas Community has dealt with periodic localized along Las Lomas Drive for years. The Project consists of the installation of new storm drainage infrastructure, pavement reconstruction, and utility relocations to allow space for the new storm drain system. Given the complexity of the Project, the project was divided in sections. The first section was completed in 2016 and consisted of replacing the large diameter culvert under Hall Road. The current phase is from Sill Road to Thomas Road

The project is funded by County General funds and Measure X funds. The Measure X will be used to fully fund all the project sections. The project is in the utility relocation and right-of-way acquisition phase

Las Lomas Drive Flooding during
the winter of 2016

7. Blanco Road Overlay

\$24,630

The Project consists of rehabilitating existing asphalt pavement on Blanco Road between Davis Road and Research Drive. The work will entail grinding the existing pavement and paving 2.4-inches of hot mix asphalt concrete (HMA), new survey monuments, and installing new loop detectors. Project length is approximately 4.56 miles. The total estimated project cost, including engineering, environmental, and construction is \$3,471,023. The project is funded primarily with Measure X funds and some of county Transit Occupancy Tax (TOT) funds.

Blanco Road
pavement condition
prior to overlay

8. San Jon and Boronda Road Bridges Rail Replacement

\$21,239

The San Jon Road and Boronda Road Bridge Rail Replacement Project consists, in general, of replacing the existing bridge rails of two County bridges, San Jon Road Bridge and Boronda Road Bridge, to meet current State standards. The total estimated project cost, including environmental, engineering, and construction, is \$450,161. The project is funded mostly by the FHWA Highway Bridge Program (HBP) and Measure X. Measure X provided the require 11.43% local match.

Boronda Road new bridge railing

San Jon Road new bridge railing

9. Systemic Safety Analysis Report Program**\$371**

The county was a recipient of a State grant (\$90,00) to prepare a collision analysis and identify treatments for high collision location through Monterey County. The analysis will look at high accident location at signalized intersection, unsignalized intersection and rural roadways. The Measure X funds are providing the 10% local match to the State funding.

10. Peach Tree Bridge Replacement**\$3,776**

The proposed Project replaced the old seismically deficient bridge on Peach Tree Road over Pancho Rico Creek, located in southern Monterey County. The Project involved the installation of a new single clear span bridge over Pancho Rico Creek with a structure that met current California Department of Transportation (Caltrans) seismic standards. The former bridge was constructed in 1955, and was approximately 17 feet wide and 59 feet long and did not meet current design or seismic safety standards. The new bridge is approximately 28 feet wide and 80 feet long and clear-spans Pancho Rico Creek. The new bridge is supported by two abutments, one on each side of the creek, outside of the creek channel.

The project was primarily funded by FHWA HBP (88.53%) and Measure X provided the funds to complete the revegetation monitoring and reporting to the regulatory agencies.

Old Peach Tree Road Bridge

New Peach Tree Road Bridge

11. Nacimiento Drive Bridge Replacement

\$87,234

The proposed project is located on Nacimiento Lake Drive approximately seven miles southwest of the community of Bradley in South County. The project will replace the existing seismically deficient one-lane Nacimiento Lake Drive Bridge with a new two lane bridge. The existing will be replaced with a structure that met current California Department of Transportation (Caltrans) seismic standards. The project is in the final stages of the right-of-way phase and utility relocations.

The project is primarily funded by FHWA HBP. Measure X funds augment funding for the right-of-way phase.

Existing Nacimiento Road bridge to be replaced

INDEPENDENT AUDITOR'S REPORT

Board of Supervisors
County of Monterey, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Measure X activity of the County of Monterey (County), as of and for the year ended June 30, 2018, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Measure X Activity, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Measure X Activities and do not purport to, and do not, present fairly the financial position of the County of Monterey, as of June 30, 2018 or the changes in its financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2018 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

See accompanying Notes to the Financial Statements

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Measure X activity of the County of Monterey are prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units (GAAP). The Activities' reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

Reporting Entity

The County of Monterey receives Measure X funding from the Transportation Agency for Monterey County for the purpose of street and road infrastructure improvements. The financial statements present only the Measure X Activity of the County of Monterey and do not purport to, and do not present, the County's financial position and changes in financial position. The County of Monterey's basic financial statements are available from the Auditor-Controller at www.co.monterey.ca.us/auditor.

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Measure X Activity of the County of Monterey is presented as a governmental fund type. Governmental funds are accounted for using a current financial resources measurement focus. The application of this measurement focus provides that, in general, only current assets and current liabilities are present on the balance sheet. Operating statements of these funds present revenues and expenditures.

The modified accrual basis of accounting is used for all funds. Under the modified accrual basis of accounting, revenues are recognized when they become susceptible to accrual (i.e., both measurable and available). Measurable means that the amount of the transaction can be determined. Available means the funds are collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures of governmental funds are generally recognized when the related fund liability is incurred.

NOTE 2 – CASH DEPOSITS

The County follows the practice of pooling cash and investments for all funds under its direct daily control. Interest earned on pooled cash and investments is allocated periodically to the various funds based on average cash balances. Detailed disclosure regarding the County's investments of cash is included in the notes to financial statements of the County.

NOTE 3 – MAINTENANCE OF EFFORT

The Measure X Master Programs Funding Agreement between the County of Monterey and the Transportation Agency for Monterey County required that the County must expend each fiscal year from its General fund for street and highway purposes an amount not less than the annual average of its expenditures from its General fund during the preceding three fiscal years, as reported to the Controller pursuant to Streets and Highways Code section 2151 ("Maintenance of Effort"). The County General Fund provides an annual contribution to the Road Fund to meet the requirement For purposes of this calculation, an average of the prior three (3) years spent for local transportation purposes, using the General Fund annual contribution, will be used. Exemptions from this calculation include one-time capital expenses, and expiration of any voter-approved fund sources that were used for local transportation purposes. In the case of expired voter-approved fund sources, the three-year average baseline would be recalculated in the next annual verification period without said expired fund sources. Revenues from a fee imposed or contribution first received by a local jurisdiction on or after January 1, 2016 which are used on or after July 1, 2016, by that local jurisdiction for maintenance or improvement purposes on its streets and highways shall be considered as General fund expenditures for the purposes of compliance with the provisions of this Section in the fiscal year in which such expenditures are made. The following General Fund contributions to the Road Fund were made for eligible expenditures:

For the fiscal year ended:

June 30, 2015	3,768,551
June 30, 2016	4,478,822
June 30, 2017	<u>4,940,363</u>

Three year average 4,395,912

Total expenditures from the General fund for street and highway purposes for the fiscal year ended June 30, 2018 was \$5,480,243. The County was in compliance with the Maintenance of Effort requirement of the Measure X Master Programs Funding Agreement between the County of Monterey and the Transportation Agency for Monterey County.

**INDEPENDENT AUDITORS' COMPLIANCE REPORT WITH TAMC ORDINANCE NO. 2016-01
TRANSPORTATION SAFETY AND INVESTMENT PLAN**

Board of Supervisors
County of Monterey, California

We have audited the financial statements of the Measure X Activity of the County of Monterey's (the County) compliance with the types of compliance requirements described in the Transportation Agency for Monterey County's (TAMC) Ordinance No. 2016-01 and in the Measure X Master Programs Funding Agreement between TAMC and the County of Monterey applicable for the fiscal year ended June 30, 2018.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to the Measure X Activity.

Auditor's Responsibility

Our responsibility is to express an opinion on the County's compliance based on our audit in accordance with the compliance requirements described in the Transportation Agency for Monterey County's (TAMC) Ordinance No. 2016-01 and in the Measure X Master Programs Funding Agreement (the Agreement) between TAMC and the County of Monterey. The Measure X Master Programs Funding Agreement requires that the independent auditor shall perform at least the following tasks: (1) determine whether the recipient expended all Measure X funds received in compliance with Measure X, the Measure X Investment Plan, and the Policies & Project Descriptions, as they may be adopted or amended by TAMC from time to time, and the Agreement, (2) determine whether the Measure X revenues received and expended were accounted for and tracked in its own separate budget and fund titled "Transportation Safety & Investment Plan Account" and were not comingled with any other funds and that the accounting system provides adequate internal controls and audit trails to facilitate an annual compliance audit for each fund type and the respective usage and application of said funds, and (3) determine whether the County met the Maintenance of Effort requirements imposed by Measure X and State law. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on the state laws and regulations applicable to the County occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Compliance with the Measure X Activity

In our opinion, the funds allocated to and received by the County of Monterey for Measure X Activity, complied, in all material respects, with the compliance requirements referred to above that are applicable in accordance to the compliance requirements described in the Transportation Agency for Monterey County's (TAMC) Ordinance No. 2016-01 and in the Measure X Master Programs Funding Agreement between TAMC and the County of Monterey for the fiscal year ended June 30, 2018.

This report is intended solely for the information and use of Board of Supervisors, management of the Transportation Agency of Monterey County and for filing with the appropriate regulatory agencies and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Supervisors
County of Monterey, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Measure X Activity of the County of Monterey as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, and have issued our report thereon dated December 19, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency* in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Measure X Activity's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
