

APPENDIX D

INTERSECTION CONTROL EVALUATION FUNDING ASSISTANCE APPLICATION

To support jurisdictions evaluating roundabouts as potential alternatives to signalized intersections, ICE Funding Assistance sets aside \$100,000 annually in RSTP funds for jurisdictions to complete an ICE on their intersection projects. Jurisdictions will submit this application to request funding, which will be reviewed by the Technical Advisory Committee for recommendation and considered for approval by the Transportation Agency Board.

If your jurisdiction is also requesting RSTP Competitive Grant funding for this project, please include this ICE Funding Assistance application with your RSTP Competitive Grant application.

For applications that are approved by the Transportation Agency Board, jurisdictions will submit a reimbursement request form (Appendix E) to the Transportation Agency to receive funding.
