Opportunities and Constraints (Unincorporated County)

- Floodplain and agricultural land constraints along Blanco Road. Little development potential along corridor.
- Planned widening of Reservation Road west of SR-68 to East Garrison (County TIF & TAMC TIP projects).
- Heavy agricultural access traffic creates conflicts with bicyclists and pushes dirt onto bike lanes.
- Sharp horizontal curves and vertical slopes make segment undesirable for bikes and transit.
- Planned widening of Davis Rd to four lanes (County project in design, funding not fully secured).
- Potential to capture transit & bike trips to/from proposed development.
- Most direct transit connection between Salinas and Marina.
- SR-68 is a high-traffic corridor with considerable delays in the PM.
- SR-68 bridge to be widened in 2014/2015.
- Floodplain and agricultural land constraints on either side of Davis Road.
- Floodplain and agricultural land constraints on north side of Reservation Road.
- Floodplain and agricultural land constraints on north side of Reservation Road.
- Floodplain and agricultural land constraints along Inter-Garrison Rd segments.
- Some habitat constraints along Inter-Garrison Rd segments.
- Roadway would require widening for multi-modal facilities.
- Roadway would need widening for additional travel lanes and/or bicycle/pedestrian facilities.
- Roadway would need widening for additional travel lanes and/or bicycle/pedestrian facilities.
- Roadway would need widening for additional travel lanes and/or bicycle/pedestrian facilities.
- SR-68 bridge to be widened in 2014/2015.
