Opportunities and Constraints (City of Salinas)

- Major corridor demand generated in downtown Salinas and integration with Vibrancy Plan
- Casa Blanca Road is a high-traffic corridor with considerable delays in the PM.
- Roadway narrows from 60’ to 40’ north of W. Gabilan Street.
- Planned capacity improvements to Main St/Blanco Road intersection.
- Some agricultural land constraints on west side of Davis Road.
- Some agricultural land constraints on south side of Blanco Road.
- Agricultural land and floodplain constraints on north and south sides of Blanco Road.
- Roadway would need widening for additional travel lanes and/or bicycle/pedestrian facilities. Would also require full reconstruction of existing Davis Rd Bridge.
- Davis Road/Market Street interchange is a constraint for bicyclists.
- Roadway would need widening for additional travel lanes and/or bicycle/pedestrian facilities.
- Potential to remove on-street parking to provide width for multi-modal improvements.
- Potential connection to existing MST Salinas Transit Center.
