3. CONSENT AGENDA:
On a motion by Committee Member Huit and seconded by Committee Member Phillips the committee voted 5–0 to approve the consent agenda. Committee member Craig arrived after consent approval.

3.1 Approved minutes from the Executive Committee meeting of April 6, 2016.
3.2 Received the legislative update.

END OF CONSENT
4. On a motion by Committee Member Phillips and seconded by Committee Member Craig
the committee voted 6–0 to receive the state legislative update and recommend that the
Board adopt positions on bills of interest to the Agency.

Christina Watson, Principal Transportation Planner, reported that staff has been working
with the legislature and stakeholders on AB 2730, authored by Alejo. As amended, this
bill restricts the funding for use in the US 101 corridor and deletes the requirement that
Caltrans declare the properties as surplus and sell them immediately, to give Caltrans the
opportunity to fully vet the potential use of the properties and to hold on to properties that
it can potentially use in the foreseeable future. Also, SB1197, authored by Cannella,
would have authorized the extension of intercity passenger rail service beyond the
statutorily-defined boundaries of the corridor. Agency staff, along with the Coast Rail
Coordinating Council, decided that, instead of making amendments to the bill in open
hearing, to pull the bill to develop language all stakeholders can support next year.

John Arriaga, JEA & Associates, reported that SB 885 by Wolk, related to indemnity
clauses in design contracts, has been controversial but is moving forward through the
process. He noted that the League of California Cities, the California State Association of
Counties, and the California Special Districts Association are among the entities that
oppose the bill. Executive Director Debbie Hale noted that the Chambers of Commerce
are in support based on concerns from the American Institute of Architects.

5. On a motion by Committee Member Chavez and seconded by Committee Member Huitt
the committee voted 6–0 to receive information on ballot initiative and recommend an
oppose position on the “No Blank Checks” initiative on the November 2016 ballot.

Christina Watson, Principal Transportation Planner, reported that the California
Association of Councils is encouraging their members to review and consider opposing
the ‘No Blank Checks” initiative on the November 2016 ballot. This initiative would
amend the California Constitution to prohibit the state from issuing bonds on projects
exceeding $2 billion without a direct vote of the people.

John Arriaga, JEA & Associates, reported that the initiative was in response to the Delta
tunnel project, and noted the Governor opposes the initiative.
6. On a motion by Committee Member Huitt and seconded by Committee Member Phillips the committee voted 6–0 to recommend that the Board approve Resolution 2016-09 adopting the fiscal year 16/17 budget and overall work program and estimated budgets for fiscal years 17/18 and 18/19.

Todd Muck, Deputy Executive Director, highlighted work the Agency will be doing in fiscal year 16/17, with examples such as outreach on the Holman Highway construction and the Monterey to Salinas Highway 68 Scenic Corridor study.

Rita Goel, Director of Finance & Administration, reported the Agency budget separates expenditures into two types: operating and direct program. Operating expenditures include staff salaries and benefits, materials and supplies, and equipment purchases. Direct program expenditures include outside consultants, contracts, expenditures that apply to specific overall work program tasks such as rail program, highway projects, bicycle and pedestrian program etc.

Next step on May 25, 2016, the Board will be asked to approve the budget and overall work program, in accord with Agency Bylaws requiring the annual budget be approved no later than the Board’s May meeting.
7. The Committee received a report on the draft agenda for TAMC Board meeting of May 25, 2016:

Executive Director Hale reported that the Board would be asked to adopt the Regional Pedestrian and Bicyclist Way finding Plan for Monterey County. The Board will also hold a Sales Tax Ballot Hearing to introduce ordinance to place on ballot. Receive presentation on the Regional Development Impact Fee program and FORA Fee Study update; Approve removal of South County interchanges from the Regional Development Impact Fee project list and the revised fee schedule; and Provide policy input on coordinating the Fort Ord Reuse Authority (FORA) Community Facilities District fees with the Regional Development Impact Fee after the dissolution of FORA.

9. **ADJOURNMENT**

Chair Armenta adjourned the meeting at 10:13 a.m.

Memorandum

To: Executive Committee
From: Grant Leonard, Transportation Planner
Meeting Date: June 1, 2016
Subject: Call Box Program Evaluation

RECOMMENDED ACTION

RECEIVE a presentation on the upcoming evaluation of the Monterey County Call Box Program.

SUMMARY

The Agency currently maintains a network of 190 active call boxes across Monterey County. The Agency will be evaluating the call box program in fiscal year 2016/17 to determine how to improve program efficiencies.

FINANCIAL IMPACT

While there are no direct financial impacts from this evaluation, the goal is to focus the program where call boxes are most needed and eliminate locations that are underutilized. These changes may have a financial impact, including a reduction in cost.

DISCUSSION

The Service Authority for Freeways Emergencies program provides free emergency telephone service at call boxes to stranded motorists. The Agency operates Monterey County’s call box program in coordination with Caltrans and the California Highway Patrol. Call boxes enhance public safety and provide emergency roadside assistance to motorists, particularly in areas with poor or no cell phone service.

There are currently 190 active call boxes in Monterey County. Call boxes are located along the following routes: State Route 1, State Route 68, State Route 156, US Highway 101, Jolon Road, Carmel Valley Road, and Arroyo Seco Road.

There are several issues facing the call box program in Monterey County, including:

- A reduction in call box usage in some areas of Monterey County.
- A need to upgrade call box sites to conform to current American with Disabilities Act (ADA) standards.
- The phasing out of 2G technology and the need to upgrade call boxes to 3G and 4G technology.
To address these issues and ensure an efficient use of resources, the Agency will evaluate call box usage from the previous three years to determine if there are opportunities to reduce the number of call boxes in Monterey County, thereby reducing program costs, as well as reduce the number of locations for ADA and 3G upgrades.

As part of the call box program evaluation and improvement plan, the Agency plans to:

June - August
- Review best practices from other SAFE programs in California.
- Determine criteria for maintaining or removing call box locations.
- Review call box usage for the past three years.
- Prepare 2015-16 call box program annual report

September - November
- Coordinate with local jurisdictions about possible locations for call box removal or addition.
- Coordinate with Caltrans and the CHP about locations for call box removal or addition.
- Draft a recommended plan for call box program improvements.
- Seek Board, local agency and public comment on the improvement plan for the call box program.

December
- Ask the TAMC Board to approve the call box program improvement plan.

At this time, Agency staff welcomes comments and suggestions on the call box program evaluation.

To: Executive Committee
From: Christina Watson, Principal Transportation Planner
Meeting Date: June 1, 2016
Subject: State Legislative Update

RECOMMENDED ACTION
RECEIVE state legislative update and RECOMMEND that the Board adopt positions on bills of interest to the Agency.

SUMMARY
Assembly Bill 2730, authored by Assembly Member Alejo, is currently on the suspense file for the Assembly Appropriations Committee. The bill list has been updated. Staff will present a legislative update and updated bill list.

FINANCIAL IMPACT
If signed by the Governor, AB 2730 could direct millions of dollars to projects in the US 101 corridor.

DISCUSSION
Staff has been working with the legislature and stakeholder entities on AB 2730 (Alejo): Department of Transportation: Prunedale Bypass: County of Monterey: disposition of excess properties. Attachment 1 is the bill analysis done by Appropriations Committee staff for the May 11 hearing. AB 2730 is currently on the suspense file, pending action on May 27. If it is taken off suspense, the bill would next go to the Assembly Floor.

Attachment 2 is a memo from Gus Khouri to the Central Coast Coalition on the Governor’s May Revise budget and other state legislative issues. Attachment 3 is the updated bill list as of May 23; changes from the list as presented at the May 25 TAMC meeting are marked by cross-out and underline. No new positions are recommended at this time. Attachment 4 is the Agency’s adopted 2016 legislative program. Agency consultant and staff will walk through the bill list and recommended positions.

1. AB 2730 Assembly Appropriations Committee Bill Analysis
2. Gus Khouri Memo: “State Legislative Update – Governor’s May Revise”
3. TAMC Bill List as of May 23, 2016
SUMMARY:

This bill directs proceeds from the sale of surplus property originally purchased for the Prunedale Bypass (Monterey County) to the State Highway Account for highway projects in the State Highway 101 corridor within that county, and exempts these proceeds from the north/south split and county share formulas.

FISCAL EFFECT:

One-time revenue from the property sales, earmarked for projects on the State Highway 101. Caltrans indicates that there 112 parcels, totaling 304 acres, that would be disposed. The estimated value of these properties is between $5 million and $12 million. Absent this bill, these revenues would be deposited into the State Highway Account and allocated as per current law.

COMMENTS:

1) **Purpose.** The Prunedale Bypass, a project to re-route State Highway 101 around the community of Prunedale, has been on the books since the 1950s. In an effort to preserve right-of-way related to the planned project, Caltrans bought over 140 parcels totaling 353 acres. The Prunedale Bypass has since been abandoned and is no longer in the area’s long-range plans.

   In the meantime, the area has moved forward with incremental improvements to address growing congestion and safety concerns. The Prunedale Improvement Project is intended to improve safety along State Highway 101 and intersecting local roadways, improve traffic flow along the corridor, and improve accessibility to area homes, businesses, and services.

2) **Prior Legislation.** Like this bypass project, other projects in the state have similarly languished and left property unused for decades. In two recent cases, legislation similar to AB 2730 was enacted to facilitate the sale of the property and the return of the proceeds to the corridor for which the properties were originally purchased. SB 791 (Corbett), Chapter 705, Statutes of 2008, authorized the use of revenues from sales of excess properties for projects in a local alternative transportation improvement program that replaced the long-planned Hayward Bypass on State Route (SR) 238 and improvements to SR 84 in Alameda County. SB 416 (Liu), Chapter 468, Statutes of 2013, directed the revenue from the sale of surplus properties in the SR 710 corridor in Los Angeles County to local transportation improvements.

RE:       STATE LEGISLATIVE UPDATE – GOVERNOR’S MAY REVISE  

On May 13, Governor Brown released the May Revision to the FY 2016-17 State Budget. Since the release of the FY 2016-17 State Budget, revenues have decreased by $1.9 billion. This reduction is attributable to poor April tax receipts and new obligations such as a managed care organization package to solidify funding for Medi-Cal, additional funding to developmental disabilities, and the passage of legislation to increase the minimum wage, which will cost $39 million in the fiscal year and as much as $3.4 billion prospectively. Barring any significant changes, the budget over the next two years is in balance. Proposition 2’s required contributions to debt payment has reduced the Rainy Day Fund by $1.6 billion since January, leaving only 54% of the target amount in the fund.

In the coming years, the state’s commitments will exceed expected revenues. By FY 2019-20, the annual shortfall between spending and revenues is forecast to be over $4 billion. This shortfall does not take into account the likelihood of an economy slowdown or recession. An emerging shortfall is largely – but not entirely – due to the expiration of the temporary taxes imposed under Proposition 30. Voters will be able to consider a 12-year extension of Proposition 30 extension this November. Even assuming passage, the longer-term budget outlook would be barely balanced. This is due to an unemployment rate that remains at 5% and an economy that will grow at a slower pace (2.5%). If an extension is not approved, additional cuts will have to be made.

Impact on Transportation  
Governor Brown restates his plan that was proposed in the January Budget. We have previously reported on the elements of his proposal. Below is a summary of the details:

- Road Improvement Charge—$2 billion from a new $65 fee on all vehicles, including hybrids and electrics.
- Stabilize Gasoline Excise Tax — $500 million by setting the gasoline excise tax beginning in FY 2017-18 at the historical average of 18 cents and eliminating the current annual adjustments made by the Board of Equalization. There would also be annual adjustment to account for inflation and maintaining purchasing power.

- Diesel Excise Tax—$500 million from an 11-cent increase in the diesel excise tax beginning in FY 2017-18. This tax would also be adjusted annually for inflation to maintain purchasing power.

- Cap and Trade—$500 million in additional Cap and Trade proceeds.

- Caltrans Efficiencies — $100 million in cost-saving reforms.

- Accelerated Loan Repayments — $879 million in loan repayments over the next four years to be used for the Transit and Intercity Rail Capital Program, trade corridor improvements, and repairs on local roads and the state highway system. The Legislature has already adopted the first year’s repayment of $173 million.

Over the next ten years, the $36 billion transportation package will provide $16.2 billion for highway repairs and maintenance, and invest $2.3 billion in the state’s trade corridors. Local roads will receive more than $13.5 billion in new funding. Transit and intercity rail will receive over $4 billion in additional funding. Since disadvantaged communities are often located in areas affected by poor air quality, a minimum of $2 billion (50 percent) of these transit and rail funds is proposed by the Governor to be spent on projects that benefit these communities.

In addition to accelerated loan repayments of $173 million already adopted by the Legislature, $1.6 billion in partial resources are available and will be distributed as follows:

- Local Streets and Roads—An increase of $342 million in shared revenues to be allocated by the Controller to cities and counties for local road maintenance according to existing statutory formulas.

- Low Carbon Road Program — $100 million Cap and Trade for Caltrans to implement a new Low Carbon Road Program for local projects that encourage active transportation such as bicycling and walking, and other carbon reducing road improvements, with at least 50 percent being directed towards disadvantaged communities.

- Transit and Intercity Rail Capital Program—An increase of $400 million Cap and Trade for transit capital investments that provide greenhouse gas reductions, with at least 50 percent of the funds directed to benefit disadvantaged communities.
• **Highway Repairs and Maintenance**—An increase of $510 million for Caltrans to fund repairs and maintenance on the state highway system.

• **Trade Corridor Improvements**—An increase of $200 million for Caltrans to fund projects along the state’s major trade corridors, providing ongoing funding for a program originally established with $2 billion in one-time Proposition 1B bond funding. Trade corridors will also receive additional federal funding as described in the next section.

The May Revise also acknowledges the need to stabilize the price-based portion of the gas tax, which is subject to volatility, and has resulted in the California Transportation Commission’s (CTC) recommendation to deprogram over $754 million in State Transportation Improvement Program projects.

**Federal Funds**
The new Fixing America’s Surface Transportation (FAST) Act provides a five-year federal authorization of highway, transit, safety, and rail programs. The FAST Act allocates $582 million over the five-year period to California through the new National Highway Freight Program funding formula. Additionally, California is eligible to receive a portion of $900 million annually from the Fostering Advancements in Shipping and Transportation of the Long-term Achievement of National Efficiencies (FASTLANE) competitive grants. FASTLANE grants can also be applied to up to 60 percent National Significant Freight and Highway Program costs, with the remaining funds from state, local, or other federal fund sources.

The May Revise provides language that makes other state and federal funding available as a match for the remaining 40 percent. Caltrans proposes expending the formula funding pursuant to the Trade Corridor Improvement Fund guidelines. The CTC will allocate half of the funding to corridor-based projects proposed by local agencies and the other half to projects of statewide significance as proposed by Caltrans.
