Large Vehicle Driving Tips

• Approach the roundabout and **yield** to vehicles and bicyclists already in the intersection as well as pedestrians at crosswalks.

• When clear, enter the roundabout and continue around until ready to exit.

• Use right-turn signal to indicate to others that you are exiting the roundabout.

• **Keep in mind** that the trailer may go off of the main road and on to the truck apron – don’t worry, the truck apron was designed for that precise purpose!
STEP 1: Exit the Pebble Beach Highway 1 Gate and turn left toward Highway 68 and Highway 1 North (large trucks will need to get into the right turn lane to allow enough space to make the left turn)

STEP 2: Get in the left lane to enter the roundabout. **DO NOT** attempt to turn right to avoid the roundabout, there is not adequate space for large vehicles to make this turn.

STEP 3: Drive all the way around the roundabout and take the exit for Highway 1 North.
