(Agendas are on display and are posted 72 hours prior to the scheduled meeting at the Transportation Agency office and at these public libraries: Carmel, Monterey, Salinas Steinbeck Branch, Seaside, Prunedale, King City, Hartnell College, Monterey Peninsula College, and Cal State University Monterey Bay. Any person who has a question concerning an item on this agenda may call the Transportation Agency office at 831-775-0903 to make inquiry concerning the nature of the item described on the agenda.) The agenda and all enclosures are available on the Transportation Agency website: www.tamcmonterey.org, by clicking on Transportation Agency Board, meetings and agendas, click on agenda item and open it, click on report attachments listed at end of report.

1. QUORUM CHECK – CALL TO ORDER

Transportation Agency by-laws require a quorum of a minimum of 9 voting members, including a minimum of 7 city representatives and 1 county representative.

If you are unable to attend, please contact your alternate. Your courtesy to the other Transportation Agency Board members to assure a quorum is appreciated.

PLEDGE OF ALLEGIANCE

2. PUBLIC COMMENTS

Any person may address the Transportation Agency Board at this time. Presentations
should not exceed three minutes, should be directed to an item NOT on today's agenda, and should be within the jurisdiction of the Transportation Agency Board. Though it is not required, the Transportation Agency Board appreciates your cooperation in completing a speaker request form available on the table at the entrance to the meeting room. Please give the completed form to the Transportation Agency Administrative Assistant. If you have handouts, please provide 30 copies for the entire Board before the meeting starts or email to Agency Administrative Assistant 24 hours in advance of the meeting.

3. **CONSENT AGENDA**

   Approve the staff recommendations for items listed below by majority vote with one motion. Any member may pull an item off the Consent Agenda to be moved to the end of the **CONSENT AGENDA** for discussion and action.

4. **PRESENT** Transportation Agency Employee of the Quarter to Elouise Rodriguez.

   Elouise Rodriguez has been selected by the employees of the Transportation Agency for Monterey County as the Employee of the Quarter for July 1 - September 30, 2018.

   - Hale

5. **PUBLIC COMMENT** on the Closed Session;

   **CLOSED SESSION:**

   Pursuant to Government Code section 54956.9(d)(1), the Board will confer with legal counsel regarding existing litigation:

   1. TAMC v. Olga Chisum, et al., Court Number 17CV001194
   2. TAMC v. Joseph Viera, Court Number 17CV001228
   3. TAMC v. MWM Investments, Court Number 17CV001231

   **RECONVENE** in open session and report any actions taken.

   - Zeller

6. **FORA Transition Planning:**

   1. **RECEIVE** a presentation on the Transportation Agency's role in the Fort Ord Reuse Authority's transition planning efforts; and

   2. **PROVIDE** direction to staff related to regional transportation project funding in the reuse area.

   - Zeller

   *The Fort Ord Reuse Authority currently sunsets in 2020 and FORA staff is in the process of preparing a transition planning document. Currently, the Regional Development Impact Fee program is identified as a successor to addressing regional*
Transportation mitigation for new development within the FORA area post-2020. Transportation Agency staff is seeking Board policy direction on several items related to the funding of regional transportation improvements for inclusion in a transition agreement with FORA.

7. RECEIVE reports from Transportation Providers:
   - Caltrans Director's Report and Project Update - Gubbins
   - Monterey Peninsula Airport - Sabo
   - Monterey-Salinas Transit - Sedoryk
   - Monterey Bay Air Resources District - Stedman

8. Reports on meetings attended by Board Members at Transportation Agency expense, as required by state law.

10. Announcements and/or comments from Transportation Agency members on matters that they wish to put on future Transportation Agency agendas.

11. ADJOURN
ADMINISTRATION and BUDGET

3.1.1 APPROVE minutes of the Transportation Agency for Monterey County (TAMC) the Service Authority for Freeways and Expressways, and the Monterey County Regional Development Impact Fee Joint Powers Agency for September 26, 2018.

- Montiel

3.1.2 ACCEPT the list of checks written for the month of September 2018 and credit card statements for the month of August 2018.

- Delfino

The list of checks and copies of credit card statements are submitted to the Transportation Agency Board each month in accordance with the recommendation from the Transportation Agency’s independent Certified Public Accountant to keep the Board informed about the Transportation Agency’s financial transactions.

3.1.3 RECEIVE report on conferences or training attended by agency staff.

- Muck

Agency staff occasionally attends conferences or training at Agency expense that are pertinent to their roles in pursuing the Agency’s mission. These events allow the staff to stay current and participate in the development of transportation practices and policies related to their roles.

BICYCLE, PEDESTRIAN, TRANSIT, and SOCIAL SERVICES

3.2.1 AMEND the Agency's Transportation Development Act Guidelines to meet new legislative requirements.

- Castillo

The Agency administers Transportation Development Act funds that are a designated source of funding for planning, bicycle and pedestrian projects, and public transit. The Agency's Transportation Development Act Guidelines must be updated to reflect legislative changes in the Act from Senate Bill 508, which include updated farebox recovery ratios for transit operators, new efficiency standards and the new SB1 State of Good Repair Program funded by the State Transit Assistance sales tax on diesel fuel.
3. 2.2 **APPROVE** the appointment of Martin Wegenstein to serve as County District 5's representative on the T AMC Bicycle and Pedestrian Facilities Advisory Committee.

- Castillo

_The Board appoints members of the public on an as-needed basis to serve on the Bicycle and Pedestrian Facilities Advisory Committee to advise staff on bicycle and pedestrian transportation issues and make recommendations to the TAMC Board._

3. 2.3 **RECEIVE** the call for nominations for the 18th annual Transportation Excellence awards to honor individuals, businesses, groups or projects for their efforts to improve the transportation system in Monterey County.

- Wright

_Transportation Agency would like to encourage and appreciate efforts made by Monterey County residents, businesses and employees to improve transportation in Monterey County by awarding Transportation Excellence Awards. Staff encourages Board members to submit nominations, which are due by December 7, 2018. The awards ceremony will take place during the regular January 23, 2019 Transportation Agency Board meeting._

**PLANNING**

3. 3.1 **Monterey County Regional Conservation Investment Strategy RFP**

1. **APPROVE** Request for Proposals for the Monterey County Regional Conservation Investment Strategy, subject to counsel approval;

2. **AUTHORIZE** staff to publish the RFP, and return to the Board of Directors with a recommendation for approval of a consultant; and

3. **APPROVE** the use of funds from the approved project budget for this contract in an amount not-to-exceed $328,150.

- Zeller

_This request for proposals will seek bids from qualified consultants to assist the Agency with the Monterey County Regional Conservation Investment Strategy._

3. 3.2 **RECEIVE** update on state legislative issues and **APPROVE** the draft 2019 program for distribution to Committees for comment.

- Watson

_The Executive Committee provided input for the draft 2019 legislative program._
3. 4.1 On-Call Roundabout Design Peer Review Request for Proposals (RFP)

1. **APPROVE** Request for Proposals for On-Call Roundabout Design Peer Review, subject to counsel approval;

2. **AUTHORIZE** staff to publish the RFP, and return to the Board of Directors with a recommendation for approval of a consultant; and

3. **APPROVE** the use of funds from approved project budgets for this contract for an estimated amount not to exceed $640,000.

- Deal

*This request for proposals will seek bids from qualified consultants to assist the agency with independent design review for roundabout projects currently being considered and prepared by Caltrans, including the SR 156 / Castroville Boulevard Interchange Project and proposed roundabout alternatives that may be included in the environmental determination for the SR 68 Scenic Corridor Project.*

**RAIL PROGRAM** - No items this month

**REGIONAL DEVELOPMENT IMPACT FEE** - No items this month

**COMMITTEE MINUTES - CORRESPONDENCE** for October 2018

3. 7.1 **ACCEPT** draft minutes of the Transportation Agency Committees:

- Executive Committee - October 3, 2018
- Technical Advisory Committee - October 4, 2018
- Rail Policy Committee - No meeting this month
- Bicycle and Pedestrian Facilities Advisory Committee - No meeting this month
- Excellent Transportation Oversight Committee - No meeting this month

- Rodriguez

3. 7.2 **RECEIVE** Transportation Agency for Monterey County correspondence for October 2018.

- Rodriguez

**END OF CONSENT AGENDA**
ANNOUNCEMENTS
Next Transportation Agency for Monterey County meeting will be on
Wednesday, December 5, 2018
Agricultural Center Conference Room
1428 Abbott Street
Salinas, California
9:00 A.M.

Documents relating to an item on the open session that are distributed to the Board less than 72 hours prior to
the meeting shall be available for public inspection at the Office of the Transportation Agency for Monterey
County, 55-B Plaza Circle, Salinas, CA.

Documents distributed to the Agency Board at the meeting by staff will be available at the meeting; documents
distributed to the Board by members of the public shall be made available after the meeting.

The Transportation Agency web site contains information from the Transportation Agency Resource Guide,
including Transportation Agency Board members, Transportation Agency committee members, grant
programs, etc. Visit us at: http://www.tamcmonterey.org.

Transportation Agency for Monterey County
55-B Plaza Circle, Salinas, CA 93901-2902
Monday thru Friday 8:00 a.m. - 5:00 p.m.
TEL: 831-775-0903
FAX: 831-775-0897

If requested, the agenda shall be made available in appropriate alternative formats to persons with a disability, as required by Section 202 of the Americans with Disabilities Act of 1990 (42 USC, Sec. 12132), and the federal rules and regulations adopted in implementation thereof. Individuals requesting a disability-related modification or accommodation, including auxiliary aids or services, may contact Transportation Agency at 831-775-0903. Auxiliary aids or services include wheelchair accessible facilities, sign language interpreters, Spanish Language interpreters and printed materials, and printed materials in large print, Braille or on disk. These requests may be made by a person with a disability who requires a modification or accommodation in order to participate in the public meeting, and should be made at least 72 hours before the meeting. All reasonable efforts will be made to accommodate the request.
Memorandum

To: Board of Directors
From: Debra L. Hale, Executive Director
Meeting Date: October 24, 2018
Subject: Employee of the Quarter

RECOMMENDED ACTION:
PRESENT Transportation Agency Employee of the Quarter to Elouise Rodriguez.

SUMMARY:
Elouise Rodriguez has been selected by the employees of the Transportation Agency for Monterey County as the Employee of the Quarter for July 1 - September 30, 2018.

FINANCIAL IMPACT:
None.

ATTACHMENTS:

EOQ - Rodriguez
EMPLOYEE OF THE QUARTER

Elouise Rodriguez

It is hereby certified that Elouise Rodriguez has been selected by her colleagues at the Transportation Agency for Monterey County as the Employee of the Quarter for July 1 – September 30, 2018.

The Agency employees recognize Elouise for her efficiency, agenda preparation and keeping the office running. They appreciate her patience and cheerfulness and most notably for keeping meetings on track and being in style.

On behalf of the Board of Directors and staff of the Transportation Agency for Monterey County, it is our great pleasure to recognize Elouise Rodriguez for her exemplary service.

Recognized By

TAMC Chair
John Phillips

Date: October 24, 2018
RECOMMENDED ACTION:

FORA Transition Planning:
1. RECEIVE a presentation on the Transportation Agency's role in the Fort Ord Reuse Authority's
   transition planning efforts; and
2. PROVIDE direction to staff related to regional transportation project funding in the reuse area.

SUMMARY:
The Fort Ord Reuse Authority currently sunsets in 2020 and FORA staff is in the process of preparing
a transition planning document. Currently, the Regional Development Impact Fee program is identified
as a successor to addressing regional transportation mitigation for new development within the FORA
area post-2020. Transportation Agency staff is seeking Board policy direction on several items related
to the funding of regional transportation improvements for inclusion in a transition agreement with
FORA.

FINANCIAL IMPACT:
FORA's local first policy prioritizes on site projects in the FORA Capitol Improvement Program over
off site and regional projects. Transportation Agency staff compared FORA's historical funding
allocations to projects that would otherwise have been covered by the Regional Development Impact
Fee program. From a total of $72.9 million of transportation funding allocations made by FORA since
the inception of its fee program, $1.6 million has been allocated to off site and regional projects, due
to the local first policy. A proportional allocation formula would have resulted in $22 million being
allocated to off site and regional projects - such as Highway 156, Davis Road, Reservation Road or
the Highway 1 corridor.

Also as a result of the local first policy, the majority of FORA's funding obligations for off site and
regional projects are programmed in the outer years of FORA's Capitol Improvement Program. The
Fort Ord Reuse Authority has a balance of $123.1 million for transportation projects in its
2018 Capital Improvement Program. Of that amount, $37.3 million is for regional projects, with $31.3 million programmed in the "Post FORA" category after 2020. In addition, $22.9 million is for "off site" projects, with $19.9 million programmed for after 2020. As the attached chart shows, the Transportation Agency has most of these projects in its Regional Development Impact Fee program and could decide at any time to activate the FORA zone to start collecting the regional fees to help fund these regional projects.

**DISCUSSION:**

The Fort Ord Reuse Authority (FORA) is responsible for the oversight of the economic recovery from the closure and reuse of the former Fort Ord military base. FORA's efforts are guided by the Base Reuse Plan, first adopted in June 1997, and the 2005 FORA Fee Reallocation Study. These documents establish the circulation and roadway network related to FORA, identify the impacts from new development, and prompts the annual development of a Capital Improvement Program. FORA's Capital Improvement Program includes transportation improvements that are "on site" or within the former base, "off site" and "regional". The latter two categories include significant overlap with the projects in the Regional Development Impact Fee program. Attached is a table comparing the projects in FORA and TAMC's programs. The FORA zone is the only part of the county in which the TAMC impact fee does not currently apply, and the FORA fee revenues are allocated to projects by its Board of Directors, rather than the Transportation Agency Board.

With the planned sunset of FORA in 2020, the FORA Board established a Transition Task Force to plan for how transportation improvements, along with several other issues, will be addressed Post-FORA by reviewing the potential options for how the goals of the Base Reuse Plan can be fully implemented by other agencies and local jurisdictions after FORA. In addition to the development of a Transition Plan, FORA has also discussed the possibility of a short-term legislative extension of FORA. The intent of a legislative extension of FORA would be to maintain the Authority to allow it sufficient time to complete the CEQA mitigations of the Base Reuse Plan, manage critical habitat, and retain the area's property tax increment funding. If a legislative extension is not passed at the State-level, FORA's responsibilities will need to be passed on to other agencies.

Under either scenario, there is an argument to be made that integration of the FORA zone into the countywide Regional Development Impact Fee program would be advantageous. In fact, the FORA Transition Task Force has identified the Transportation Agency as a successor to assume the regional and off site components of FORA's Capital Improvement Program, with on site projects becoming the responsibility of the underlying local jurisdictions. The Transportation Agency's Regional Development Impact Fee is coordinated with the FORA Community Facilities District fee to assure that new development pays its fair-share for transportation improvements but is not double-charged for mitigations. Essentially, new development located within the former Fort Ord currently is required to pay the FORA Community Facilities District fee and not the TAMC Regional Development Impact Fee.

TAMC’s 2018 update to its Regional Development Impact Fee (RDIF) program added a FORA zone that provides a cost per trip fee calculation consistent with RDIF county-wide methodology used since its inception in 2008. TAMC does have the authority to start collecting the Regional Fees in the
FORA zone at the discretion of the Transportation Agency Board of Directors. If FORA were to sunset, or even before then, the Transportation Agency decide to take on the obligation for the off site and regional projects by simply activating the FORA zone to collect regional fees for those transportation improvements.

The FORA Board will hold a special meeting on October 19th to discuss transition issues and seek approval of a transition plan. Transportation Agency staff will attend the FORA special meeting and provide an update on FORA transition issues at the October 24th Transportation Agency Board of Directors meeting.

District Director’s Report

A quarterly publication for our transportation partners

Highway 1 at Mud Creek is Open

Caltrans and its local partners recently celebrated the opening of Highway 1 at Mud Creek, near Gorda, in Monterey County. The roadway is now open all the way through Big Sur from Carmel to San Simeon, following a massive landslide in May 2017. The catastrophic event washed out a quarter-mile of highway, moving six million cubic yards of earth material and displacing 50 acres of land, and created 2,400 feet of new shoreline. Caltrans rebuilt the highway segment across the slide area, buttressed with several embankments and compacted soil along with berms, rocks, netting, culverts and other stabilizing elements. Construction for the $54 million emergency project was ongoing 24/7 for the project duration and completion occurred two months ahead of schedule.

Caltrans is Hiring

With significant SB 1 investment, Caltrans plans to hire new workers to help deliver projects and offset a retiring workforce. Positions exist statewide in many fields, including engineering, surveys, maintenance, information technology, accounting, legal, planning, and more. We are also assisting small businesses and minority and veteran-owned companies to contract with the state. We are streamlining how we deliver projects in a way that helps us reduce needed resources while investing more in projects.

More information: http://www.dot.ca.gov/jobs/

SB 1 Moves California

Senate Bill 1, the Road Repair and Accountability Act of 2017, nearly doubles transportation funding for both local communities and highway maintenance. The transportation bill generates $54 billion over the next decade to rebuild streets, freeways and bridges in communities statewide while funding transit, congested trade/commute corridors and active transportation projects. In District 5, the bill is funding multiple safety and rehabilitation projects, including:

- US 101 - 9.8 miles of pavement, Monterey County, $129 million
- US 101 - 6.14 miles of rehabilitation, Santa Barbara County, $69.1 million
- Highway 9 - Two bridge replacements, Santa Cruz County, $23.2 million
- US 101 - 8.1 miles of pavement, San Luis Obispo County, $9 million
- US 101 - 2.3 miles of pavement, San Benito County, $1.4 million

Statewide, Caltrans is committed to fixing more than 17,000 lane miles of pavement, 500 bridges, 55,000 culverts, and 7,700 traffic operating systems. More information: http://rebuildingca.ca.gov/

Highway 246 Passing Lanes Completed

Caltrans and its local transportation partners recently held a ribbon-cutting event celebrating the completion of the Highway 246 passing lanes project between Buellton and Lompoc in Santa Barbara County. The $19 million project provides safe passing opportunities. The project is funded through the State Transportation Improvement Program and Measure A.

Thanking all the local partners for their contribution to the project, Acting District Director Richard Rosales noted the public will now enjoy enhanced safety, better visibility and a smoother ride along this corridor. Caltrans’ partners included Santa Barbara County Association of Governments, California Highway Patrol, County of Santa Barbara and the cities of Buellton and Lompoc.
Innovative Bridge Project Wins Multiple Awards

Caltrans’ prestigious work on the new Highway 1 Pfeiffer Canyon Bridge was recently recognized for excellence, partnership, emergency repair, technology and innovation. In February 2017, heavy storms damaged the 1968 bridge beyond repair, causing major rock slides near Lucia and Gorda, and cutting off both north and south access to Big Sur. This resulted in significant financial, social and livability impacts in this area.

Working in partnership, Caltrans expedited the $24 million emergency project, replacing the damaged bridge with a 315-foot single-span steel girder structure, weighing more than 900 tons, with six-foot shoulders for bicycle/pedestrian accommodation. The assembled girders were pulled across the steep canyon simultaneously using high-strength steel cable and hydraulic pistons—an innovative method applied for the first time in California. Caltrans and the contractor, Golden State Bridge, collaborated through design and completed the project in just eight months—a process normally taking up to eight years. A unified command—comprised of many local, state and federal agencies, elected officials, business representatives and advocacy groups—successfully helped the team to meet its high goals within cost, scope and schedule.

Organizations formally recognizing the project’s excellence included the Transportation Agency for Monterey County, American Public Works Association, California Transportation Foundation, American Association of State Highway and Transportation Officials, and Caltrans.

Adaptation Planning

Caltrans recently awarded five adaptation planning grants (Fiscal Year 2018/19) in District 5 funded through SB 1. These included:

- City of Monterey - Transportation Adaptation Plan, $212,472.
- City of Pacific Grove, Sea Level Rise Transportation & Infrastructure Adaptation Plan, $220,956.
- County of Santa Barbara, Goleta Beach Park Revised Adaptive Management Plan, $223,236.
- City of Santa Cruz, West Cliff Drive Adaptation and Management Plan, $342,741.
- TAMC, Monterey County Regional Conservation Investment Strategy, $375,810.

Local partners celebrate rail extension

Rail Extension Kicks Off

The Transportation Agency for Monterey County recently held a groundbreaking event launching the new passenger rail extension project. The $81 million project will extend rail service from Santa Clara County to Salinas while improving commuter access between Salinas, Gilroy, San Jose and San Francisco. This project helps relieve congestion and offers better access to jobs, healthcare, recreation and transportation options, said Debbie Hale, TAMC executive director. Project partners included state and federal agencies; County of Monterey; cities of Monterey, Salinas and King City; and the Salinas City Center Improvement Association.

Call for Applications & Grant Workshop Coming

A call for projects for the Caltrans Sustainable Transportation Planning Grant Program, (Fiscal Year 19/20) is scheduled in October with an expected deadline to submit applications on Friday, November 2, 2018. The program categories include Strategic Partnerships, Sustainable Communities and Adaptation Planning. The final grant program guides are also scheduled for release in September. District 5 plans to host an informational grant workshop in the fall to assist applicants in the application process. Details are forthcoming. 1. CALL TO ORDER
Chair Phillips called the meeting to order at 9:04 a.m., and Kay Reimann led the pledge of allegiance.

2. PUBLIC COMMENTS
None.

3. CONSENT AGENDA
M/S/C Craig/Salinas/unanimous
The Board approved the consent agenda.

ADMINISTRATION and BUDGET

3.1.1 Approved minutes of the Transportation Agency for Monterey County, the Service Authority for Freeways and Expressways, and the Monterey County Regional Development Impact Fee Joint Powers Agency for Monterey County meeting of August 22, 2018.

3.1.2 Accepted the list of checks written in August 2018 and credit card statements for the month of July 2018.

3.1.3 Received report on conferences or trainings attended by agency staff.

3.1.4 Ratified changes to paid vacation and professional leave for Senior Engineer hired by the Executive Director.

3.1.5 Denied the tort claim of Eriberto Jairegui and/or Eva Jauregui, as guardians for Eriberto Jauregui, related to personal injury damages occurring on Hall Road in Royal Oaks in February 2018.
BICYCLE, PEDESTRIAN, TRANSIT and SOCIAL SERVICES

3.2.1 Approved the appointment of Mike Novo representing District 3 to serve on the TAMC Bicycle and Pedestrian Facilities Advisory Committee.

3.2.2 Regarding Monterey-Salinas Transit State of Good Repair Program:
   1. Adopted Resolution 2018-17 programming $777,095 of Fiscal Year 2018-19 State of Good Repair Program funds to Monterey-Salinas Transit to fund a bus procurement; and
   2. Authorized the Executive Director to sign and submit regional agency certifications and assurances.

PLANNING
No items this month.

PROJECT DELIVERY and PROGRAMMING
No items this month.

RAIL PROGRAM

3.5.1 Regarding Salinas Rail Package 2: Phase II Environmental Site Assessment:
   1. Approved and Authorized the Executive Director to execute contract with Geocon Consultants, Inc., subject to approval by Agency Counsel, in an amount not to exceed $20,632, to perform an Environmental Site Assessment of the Salinas Rail Project Package 2 parcels, for the period ending June 30, 2019;
   2. Approved the use of Traffic Congestion Relief Program funds budgeted to this project; and
   3. Authorized the Executive Director to take such other further actions as may be necessary to fulfill the intent of the contract, including approvals of future modifications or amendments that do not significantly alter the scope of work, or change the approved contract term or amount, subject to approval by Agency Counsel.

3.5.2 Approved allocation of Rail Extension to Monterey County project funding as a match to a Caltrans rail safety grant for the Salinas-Gilroy rail corridor.

REGIONAL DEVELOPMENT IMPACT FEE
No items this month.

COMMITTEE MINUTES

3.7.1 Accepted draft minutes from Transportation Agency committees:
   • Executive Committee – September 5, 2018
   • Bicycle and Pedestrian Committee – No meeting this month
   • Rail Policy Committee – September 10, 2018
   • Technical Advisory Committee – No meeting this month
   • eXcellent Transportation Oversight Committee (xTOC) – No meeting this month

3.7.2 Received selected correspondence sent and received by the Transportation Agency for September 2018.
4. REGIONAL DEVELOPMENT IMPACT FEE NEXUS STUDY UPDATE

LeBarre/ Huitt/ unanimous

The Board received a presentation on the Regional Development Impact Fee Nexus Study Update; approved Resolution 2018-15 determining that the projects in the 2018 Regional Development Impact Fee Nexus Study are already in the scope of environmental review of the 2018 Monterey County Regional Transportation Plan; approved the 2018 Regional Development Impact Fee Nexus Study; and approved the 2018 Strategic Expenditure Plan Update for the Regional Development Impact Fee Program.

Mike Zeller, Principal Transportation Planner, reported that the Transportation Agency is required under state law to update the Regional Development Impact Fee every five years. This process includes reviewing the land use and population assumptions in the regional travel demand model, forecasting future travel demands, updating the project list as necessary to meet those demands, revising project costs, and developing an update fee schedule. The draft 2018 Regional Development Impact Fee program that is projected to generate $131 million through year 2035 with one-percent of these revenues reimbursing the agency’s fee program administrative expenses. He noted that these revenues depend on the type, location and pace of new development.

Agency staff and Wood Rodgers presented the draft results of the 2018 Regional Development Impact Fee Nexus Study Update to the Transportation Agency Board of Directors at the August 22, 2018 meeting as part of a workshop on the fundamentals and technical aspects of the regional fee program. Considering the increase to the fee per trip calculate in the draft study, the Board voted to carry approval of the draft study over one month and requested that staff reevaluate the inclusion of the entire $388 million State Route 156 widening project in the regional fee program.

In response, Agency staff developed a proposal for segmenting the project into individual components, and including only the first two segments in the fee program:

- Segment 1: State Route 156 / Castroville Boulevard Interchange
- Segment 2: State Route 156 Widening
- Segment 3: State Route 156 / US 101 Interchange

Board member Huitt thanked Agency staff and consultants for the study update and the responsiveness to Board member concerns.
5. **STATE ROUTE 156/CASTROVILLE BOULEVARD INTERCHANGE PROJECT AND CONCEPT PRESENTATION**

The Board received an update on State Route (SR) 156/Castroville Boulevard Interchange project and a presentation of a new concept design.

Rich Deal, Principal Engineer, reported the SR 156/Castroville Boulevard Interchange project removes the existing signalized intersection on SR 156 at Castroville Boulevard and constructs a new grade-separated interchange east of the existing intersection. He noted that the initial concept for the SR 156/Castroville Boulevard Interchange project included traffic signal control at each of the new ramp intersections and Boulevard. The proposed new concept replaces the traffic signals with roundabouts. Roundabout control at the ramp intersections allows the proposed bridge over SR 156 to be narrower and reduce construction costs. He noted that roundabouts will perform better than traffic signals and have a longer design life. Roundabouts allow the Castroville Boulevard interchange to have full independent utility and accommodate future segments of the SR 156 Widening project, as well as a future Blackie Road connection. In conclusion, Mr. Deal noted that the roundabout proposed at the intersection of the realigned new Castroville Boulevard and the old alignment of Castroville Boulevard offers safe pedestrian and bike crossings between North County High School and the recently completed bike/pedestrian bridge into Castroville.

Board member Rubio asked when the project might be expected to start construction. Mr. Deal replied that construction could begin as early as 3 years from now.

Board member Craig noted that tolling is not feasible in the near-term and asked if the first phase is intended to alleviate traffic congestion or improve safety. Mr. Deal responded that removing the signal and replacing it with a roundabout will improve safety, and in doing so will also improve operations.

Board member Edelen noted that building an express tollway with a frontage road is still a good solution long-term.

Public Comment:
Cynthia Suverkrop, Oak Hills resident, stated that roundabouts will work if they are properly designed.

Dell Matt, Prunedale resident, expressed concern that San Miguel Canyon Road is severely impacted due to drivers using it as shortcut to the Peninsula. She noted her concerns that once the signal is removed, Castroville Blvd. will be a mess and there will be a need to coordinate traffic flow with signals on San Miguel Canyon Road.

Eric Petersen, Salinas resident, expressed support for roundabouts, as they reduce traffic to bicycle speed. He noted that bicyclists can ride with the cars and merge into traffic.
6. **MEASURE X SAFE ROUTES TO SCHOOL PROGRAM**

The Board received an update on the Measure X Safe Routes to School Program.

Ariana Green, Associate Transportation Planner, reported that the Measure X Safe Routes to School Program funds projects and programs that improve children’s health by making walking and bicycling safer and easier. The Program will result in the following benefits: improved safety for children walking and biking to school; better connections between schools, residential areas and vocational training programs; enhanced air quality; and healthier transportation choices for school children and parents. She noted that the program is consistent with local, state and federal goals to provide safe access to and from schools and will apply the “6 E’s” to ensure programs and projects funded are comprehensive and inclusive: evaluation, engineering, education, encouragement, enforcement and equity. The program budget includes funding for both infrastructure and non-infrastructure projects to support each of the 6 E’s. Central to the success of the Measure X Safe Routes to School program is the ability to effectively collaborate with other agencies to reach program goals. To ensure regular opportunities for communication and collaboration, agencies and organizations have been invited to participate in a Safe Routes to School Task Force facilitated by TAMC staff. She noted that the Task Force meets quarterly.

Ms. Green noted that Seaside and Marina Safe Routes to School Plan will build on the goals of the Measure X Safe Routes to School Program, and a joint effort between TAMC, Monterey County Health Department, Office of Education and other stakeholders, to ensure disadvantage populations across Monterey County have access to safe, healthy and affordable transportation options. She noted that Seaside and Marina house some of the lowest income population in the County and have some of the highest rates of youth biking and walking injuries and are thus high priority areas for safe routes to school planning. Other high priority areas that will receive safe routes to school outreach and education though the Measure X Safe Routes to School program are Salinas, South County, Castroville and North Monterey County.

Board member Craig expressed concern that there are no stop signs at several intersections with crosswalks near Henry F. Kammann Elementary School. She noted that signage in English and Spanish would be helpful.

Board member Delgado noted that the City of Greenfield has higher than average collisions around schools per capita and suggested they might consider installing speed bumps or cushions.

Board member Salinas noted that he would like Transportation Agency staff to present the information to certain School Districts.

Board member Parker thanked the Transportation Agency for putting the Safe Routes to School Program together and working with the community and noted the importance of good coordination and communication.

Chair Phillips noted that North County Schools also have safety concerns.
7. **REPORTS FROM TRANSPORTATION PROVIDERS**

**Caltrans** – Aileen Loe, Caltrans District 5, reported that SB 1 revenues are funding several projects in construction now. She noted that the Sustainable Communities - Strategic Partnerships competitive grant application will be available in October.

**Monterey Regional Airport District** – No report

**Monterey-Salinas Transit District** – Carl Sedoryk reported that MST will hold the final public hearing on October 8, 2018, on proposed emergency service reductions and fare increases that would be required if Proposition 6 were to be approved. Please contact MST if you are unable to attend the public hearings and wish to comment at [www.mst.org](http://www.mst.org). He also noted that a new zero emission bus will be in operations in Salinas on October.

**Monterey Bay Air Resources District** – David Frisbey reported that AB 2766 grant funding is available for roundabouts, adaptive signal control, electric vehicle incentives, etc. He also noted that the Prunedale Shopping Center will have six new electric vehicle charging ports installed.

**California State University Monterey Bay** – No report

8. **REPORTS ON MEETINGS ATTENDED BY BOARD MEMBERS AT TRANSPORTATION AGENCY EXPENSE, AS REQUIRED BY STATE LAW**

None this month.

9. **EXECUTIVE DIRECTOR’S REPORT**

Executive Director Hale reported that TAMC hosted a transportation town hall meeting attended by members of the California Transportation Commission at the Gonzales City Council chambers on September 19. The town hall was followed by a tour of Taylor Farms, a reception, and then a tour of key projects on the second day. Ms. Hale thanked Maura Twomey for inviting the CTC to visit the Salinas Valley. Board Member Orozco thanked everyone for inviting Gonzales to host the event.

10. **ANNOUNCEMENTS AND/OR COMMENTS**

None.

11. **ADJOURNMENT**

Chair Phillips adjourned the meeting at 10:39 a.m.
Memorandum

To: Board of Directors
From: Dave Delfino, Finance Officer / Analyst
Meeting Date: October 24, 2018
Subject: TAMC payments for the month of September 2018

RECOMMENDED ACTION:
ACCEPT the list of checks written for the month of September 2018 and credit card statements for the month of August 2018.

SUMMARY:
The list of checks and copies of credit card statements are submitted to the Transportation Agency Board each month in accordance with the recommendation from the Transportation Agency’s independent Certified Public Accountant to keep the Board informed about the Transportation Agency’s financial transactions.

FINANCIAL IMPACT:
The checks processed this period total $345,371.89 which, included checks written for September 2018 and payments of the August 2018 Platinum Plus for Business Credit Card statement.

DISCUSSION:
During the month of September 2018 normal operating checks were written, as well as a check for $24,381.40 to HDR Engineering Inc. for engineering services for the Salinas Rail Extension Kick-Start Project, a check for $30,887.89 to Meyers, Nave, Riback, Silver and Wilson for right of way services regarding the purchase of real property for the Salinas Rail Extension Kick-Start Project, a check for $6,009.96 to Geocon Consultants for hazardous materials testing and oversight of the Salinas Rail Property demolition, a check for $25,605.35 to Omni-Means, LTD for services for the traffic study of the Pajaro to Prunedale corridor, a check for $22,662.71 to Alta Planning + Design for GIS and Mapping services for the Complete Streets program, a check for $859.68 to Moxxy Marketing Corporation for marketing services for the new Rideshare Program, a check for $4,084.07 to MST for a Bus Route Feasibility Study, a check for $11,516.18 to Kimley-Horn & Associates, Inc. for services for the traffic study of Canyon Del Rey(SR218) Corridor, a check for $1,394.34 to MP Express for printing of FSP materials and a check to Alliant Insurance for $28,104.88 for TAMC, the Monterey County Regional Development Impact Fee Joint Powers Agency and Service Authority for Freeways.
and Expressways (SAFE) liability insurance.

Memorandum

To: Board of Directors
From: Todd Muck, Deputy Executive Director
Meeting Date: October 24, 2018
Subject: Educational Training Attended by Agency Staff

RECOMMENDED ACTION:
RECEIVE report on conferences or training attended by agency staff.

SUMMARY:
Agency staff occasionally attends conferences or training at Agency expense that are pertinent to their roles in pursuing the Agency’s mission. These events allow the staff to stay current and participate in the development of transportation practices and policies related to their roles.

FINANCIAL IMPACT:
Expenses related to staff training are included in the Travel and Training item in the adopted Agency budget.

DISCUSSION:
On August 28-29 2018, Principal Transportation Planner Mike Zeller attended a two-day course at California State University Sacramento on Federal Highway Program Funding. This Federal Highway Administration (FHWA) instructor-led training provided an overview of the Federal-aid Highway Program, focusing on various aspects of highway program funding unique to the Federal Highway Administration. Topics included: the operation of the Highway Trust Fund and its significance to the funding level of the Federal-aid Highway Program; the content and policy implications of authorizing and appropriating legislation; the FHWA apportionment process; obligation limitation, allocations, deductions, earmarking, and transferability; and the effect of policy and budget considerations on the use of Federal-aid funds.

On October 2, 2018, Principal Transportation Planner Mike Zeller attended the Regional Conservation Investment Strategy (RCIS) Best Practice Workshop in Sacramento, California hosted by the Nature Conservancy. With the Transportation Agency recently being awarded a Caltrans Adaptation Planning Grant to prepare a Monterey County Regional Conservation Investment Strategy, this workshop provided an excellent opportunity to meet and learn from representatives of other agencies that have
already prepared an RCIS, hear the perspectives from the State regulatory agencies, and become more familiar with the latest issues related to the best practices for developing an RCIS.

Memoranda providing more details on each of these educational events are attached.

**ATTACHMENTS:**

- Federal Highway Program Funding
- Regional Conservation Investment Strategy Best Practice
Memorandum

To:        Board of Directors
From:      Michael Zeller, Principal Transportation Planner
Meeting Date: October 24, 2018
Subject:   Federal Highway Program Funding

On August 28-29 2018, I attended a two-day course at California State University Sacramento on Federal Highway Program Funding.

This Federal Highway Administration (FHWA) instructor-led training provided an overview of the Federal-aid Highway Program, focusing on various aspects of highway program funding unique to the Federal Highway Administration. Topics included: the operation of the Highway Trust Fund and its significance to the funding level of the Federal-aid Highway Program; the content and policy implications of authorizing and appropriating legislation; the FHWA apportionment process; obligation limitation, allocations, deductions, earmarking, and transferability; and the effect of policy and budget considerations on the use of Federal-aid funds.

At the conclusion of the FHWA course, Caltrans provided an additional half-day training session on the role that Caltrans plays in securing federal funding and managing federal-aid projects. First, representatives from the Office of Federal Resources provided an overview of their functions. This includes establishing policy regarding the use of federal funds; providing engineering review of design submittals to determine federal eligibility of projects prior to authorization; identifying ways to increase federal funds to California; managing federal funds provided to California; and ensuring that State and local transportation projects fully utilize all available federal funds.

Next, representatives from Caltrans Local Assistance presented their program overview related to Federal-aid Highway Funding. They discussed how Local Assistance interacts with regulatory partners and the California Transportation Commission to make sure all of the federal rules are followed, and with regional and local agencies to assist with delivering projects. They also discussed the different funding programs, such as the Surface Transportation Block Grant Program and the Highway Safety Improvement Program, and how these funding programs are subject to timely use of funds provisions and the potential for funds to lapse that are not obligated.

Overall, the combination of the Federal Highway Administration course and the training provided by Caltrans provided an excellent overview of the network of funding programs that comprise the Federal-aid Highway Program, and how those funding programs reach local agencies, such as TAMC, with assistance from Caltrans. The course also provided a great opportunity to network and meet resources at other regional agencies and speak with representatives from Caltrans and FHWA about funding questions related to the Transportation Agency.
Memorandum

To: Board of Directors
From: Michael Zeller, Principal Transportation Planner
Meeting Date: October 24, 2018
Subject: Regional Conservation Investment Strategy Best Practice

On October 2, 2018, I attended the Regional Conservation Investment Strategy (RCIS) Best Practice Workshop in Sacramento, California hosted by the Nature Conservancy. With the Transportation Agency recently being awarded a Caltrans Adaptation Planning Grant to prepare a Monterey County Regional Conservation Investment Strategy, this workshop provided an excellent opportunity to meet and learn from representatives of other agencies that have already prepared an RCIS, hear the perspectives from the State regulatory agencies, and become more familiar with the latest issues related to the best practices for developing an RCIS.

During the opening presentation, Rick Macedo and Ron Unger from the California Department of Fish and Wildlife provided a brief overview of the RCIS program and discussed the strategic vision and desired outcomes for the program. They discussed that this as an important new tool for conservation planning and land use planning in general. The program was established with the passage of Assembly Bill 2087 in the fall of 2016 and has garnished a great deal of interest thus far.

An important outcome that was discussed is that a RCIS enables advance mitigation credits in the form of mitigation credit agreements (MCA) that are intended to enable the sale and exchange of credits for conservation and habitat enhancement actions that are grounded in the ecologically-based assessments and regional conservation strategy, and that provide advance mitigation credits for project impacts.

After the opening presentations, I participated in group exercises to review and discuss best practices for developing a RCIS. The topics discussed included:

- Multi-Agency Engagement: How do RCIS proponents encourage engagement with and enable interplay among different agencies with different primary missions so that the RCIS can incorporate multiple agencies’ priorities and perspectives?
- Interplay between Regulatory tools: How do all the tools in the marketplace work together with an RCIS? For example: Habitat Conservation Plans, Mitigation Banks, and In Lieu Fee Programs.
- Transition from an RCIS to an MCA stage: How to ensure that the RCIS is set up to easily transition into/facilitate MCA investments
- RCIS Design: How to design an RCIS for effective implementation.
Several key takeaways from these discussions that will be directly applicable to the development of a Monterey County Regional Conservation Investment Strategy include:

- Establishing a broad coalition of stakeholders and engaging with them early in the process to ensure coordination and the incorporation of priorities from agencies with distinct roles, such as Caltrans and the California Department of Fish and Game;

- Identifying ways to utilize mitigation credit agreements with other regulatory tools, such as in lieu fees and mitigation banks, to broaden the applicability to different permitting agencies; and

- Defining the RCIS area boundary broadly enough for ecological reasons and in consideration of where potential mitigation credit agreements will be to facilitate implementation.
RECOMMENDED ACTION:
AMEND the Agency's Transportation Development Act Guidelines to meet new legislative requirements.

SUMMARY:
The Agency administers Transportation Development Act funds that are a designated source of funding for planning, bicycle and pedestrian projects, and public transit. The Agency’s Transportation Development Act Guidelines must be updated to reflect legislative changes in the Act from Senate Bill 508, which include updated farebox recovery ratios for transit operators, new efficiency standards and the new SB1 State of Good Repair Program funded by the State Transit Assistance sales tax on diesel fuel.

FINANCIAL IMPACT:
There is no financial impact associated with this action. Staff time required to administer Transportation Development Act funds is budgeted in Work Element 1020.

DISCUSSION:
The California Legislature enacted the Transportation Development Act (TDA) of 1971 to improve existing public transportation services and encourage regional transportation coordination. Caltrans administers the Act through each county’s regional transportation planning agency. As the regional transportation planning agency for Monterey County, TAMC administers the county’s TDA funds. TAMC is responsible for authorizing funding to local agencies for the purposes outlined in the Act, and is responsible for conducting an annual unmet transit needs assessment.

The TDA provides two major sources for funding of public transportation in California. The first, the Local Transportation Fund (LTF) is derived from a ¼ cent of the general sales tax collected statewide. The second, the State Transit Assistance (STA) fund is derived from the statewide sales tax on diesel fuel. Each February, the Agency prepares an estimate of the LTF funding it expects to be available in
the coming fiscal year and apportions funds to eligible uses pursuant to state law in the following priority order:

1. Agency Administration and Planning (Article 3, PUC Section 99233.1);
2. Bicycle & pedestrian projects through the Transportation Development Act 2% program (Article 3, PUC Section 99233.3);
3. Public transit by jurisdiction, based on population as reported by the Department of Finance (Article 4, PUC Sections 99260(a)-(c)); and,
4. For the construction and maintenance of local streets and roads (Article 8, PUC Section 99400).

Prior to allocating LTF funding for local streets and roads purposes as outlined in Article 8 of the TDA, TAMC must provide for a public hearing and outreach to solicit comments on public transit services needed in the community, and determine if there are any “unmet transit needs that are reasonable to meet”. After 2010, TARC’s finding on unmet transit needs allowed MST to claim all available funds to support existing transit operations countywide. The revised unmet transit needs process adopted by the Board in June 2018 is included in the updated TDA Guidelines.

Transit operations and capital replacement are eligible for State Transit Assistance funds. In addition, STA funds may also be used for passenger rail pursuant to PUC Section 99234.9. State Transit Assistance funds are distributed in two manners:

1. Funds are apportioned to the Transportation Agency for allocation to operators based on County population [PUC section 99313]; and
2. Funds are apportioned directly to transit operators based on the ratio of the operator's fare revenues to the total fare revenues collected statewide [PUC sections 99314].

TAMC allocates all available STA funds to Monterey-Salinas Transit, which is the sole public transit operator in Monterey County, and the only agency that is eligible to receive these funds.

Senate Bill 508 amended portions of the TDA, requiring updates to TAMC’s TDA Guidelines. Changes from Senate Bill 508 include:

- 15% is the farebox recovery ratio for transit operators
- Transit operators must undergo an efficiency standards calculation to determine how much State Transit Assistance funds can be used for operations and capital purposes
- Discussion of the new SB 1 State of Good Repair Program

The SB 1 State of Good Repair Program provides approximately $105 million statewide of new funding annually for transit maintenance, rehabilitation and capital projects. TAMC is responsible for allocating State of Good Repair Program funds and submitting an annual list of projects proposed to Caltrans. TAMC must submit the annual project list to Caltrans by September 1 of each year. To program the annual allocation of State of Good Repair funds, TAMC must receive applications for funds by July 31 of each year.
The complete amended TDA Guidelines are included as a web attachment to this report. Staff recommends that the Board adopt these changes to the TDA Guidelines so that they match the most current State law.

WEB ATTACHMENTS:
- 2018 Amended Transportation Development Act Guidelines
RECOMMENDED ACTION:
APPROVE the appointment of Martin Wegenstein to serve as County District 5's representative on the TAMC Bicycle and Pedestrian Facilities Advisory Committee.

SUMMARY:
The Board appoints members of the public on an as-needed basis to serve on the Bicycle and Pedestrian Facilities Advisory Committee to advise staff on bicycle and pedestrian transportation issues and make recommendations to the TAMC Board.

FINANCIAL IMPACT:
The item has no financial impact to the TAMC budget.

DISCUSSION:
The TAMC Bicycle and Pedestrian Facilities Advisory Committee is composed of volunteer residents who meet monthly with Agency staff to provide input to the TAMC Board on active transportation projects and programs. The Committee also provides input to local jurisdictions and Caltrans on bike and pedestrian infrastructure projects. The Committee has most recently led the effort to help shape the content and prioritization of projects in the Monterey County Active Transportation Plan and assisted staff with the annual May Bike Month campaign.

Martin Wegenstein is being nominated by Supervisor Mary L. Adams to fill the District 5 vacancy. Mr. Wegenstein is an avid bicyclist and has led over 20 cycling tours. He also has a background in organizing and volunteering for community activities, including the Big Sur Marathon and serving on the Carmel Valley Road Advisory Committee.

Committee vacancies remain for: Del Rey Oaks, Gonzales, Marina, Monterey, Sand City and Soledad. Staff requests that Board members in these areas recruit interested individuals and refer them to staff for more information.

Application for Appointment
Transportation Agency for Monterey County
Bicycle and Pedestrian Facilities Advisory Committee

Name of Applicant
Wegenstein Martin W
(last) (first) (mi)

Residence Street Address
[Redacted]

City: Carmel Valley
Zip: 93924

Telephone: Home
Work:

Are you a full-time paid officer or employee of local, state or federal government?
No X Yes If yes employer position

Education:
MS Computer Science (US), MS in Mathematics (Switzerland)

Present Occupation:
Retired

Please describe why you are interested in serving on this committee:
I have a passion for the outdoors, especially cycling. Therefore, since my semi-retirement from a career in High Tech I have focused my energies on fitness, sports in general and cycling. I have led over 20 cycling tours in Europe, became a masters racer (road) and started to teach indoor spin classes (I teach currently at the Monterey Sports Center).

My wife and I have always been drawn towards the Carmel area. So when we fully retired in 2016 we decided to move to Carmel Valley from the Bay Area. The Monterey peninsula is a paradise for outdoor activities and could be a paradise for cycling, both as a sports activity and for use as alternative transportation. While some areas of Monterey county have an OK cycling infrastructure, the conditions in Carmel Valley and some other parts of the county are in poor condition and even unsafe.

I believe this county has a great opportunity to help solve some of its traffic congestion problems by promoting and facilitating alternative transportation such as safe pedestrian areas and cycling infrastructure (in addition to public transportation). I would like to support progress towards this goal.

Having been raised in Switzerland where public transportation, cycling and walking/hiking have always been priorities, both from the public's eye and from an investment perspective, I believe I can contribute to this advisory committee and TAMC with different and/or additional perspectives and ideas.

Please describe other community activities that you have been involved in:
I served 3 years as CEO of Bear Valley Resorts, a winter and summer mountain resort in Alpine County. During that time I served on the board the Bear Valley Music Festival and volunteered for community activities such as annual village clean-up. I am also volunteer President of the Bear Valley Tennis Club.

In Carmel Valley I volunteered on the CVRAC-Taskforce and was a volunteer marshal at the Big Sur Marathon.

Please describe other community activities that you have been involved in:

This part of the form does not work. Only allows one line. Therefore see above re comment

SUBJECT:  Appointment of Martin Wegenstein to represent District 5 on the TAMC Bike and Pedestrian Facilities Advisory Committee

Dear Ms. Castillo:

The District 5 nominates Martin Wegenstein to represent District 5 on the TAMC Bike and Pedestrian Facilities Advisory Committee.  Please find his application enclosed for your review.

Martin Wegenstein is an active advocate for bicycling/walking in the area and would make a fine addition to the TAMC Bike and Pedestrian Facilities Advisory Committee.

Sincerely,

Mary L. Adams, Supervisor
Monterey County Board of Supervisors
Fifth District
TRANSPORTATION AGENCY FOR MONTEREY COUNTY

Memorandum

To: Board of Directors
From: Theresa Wright, Community Outreach Coordinator
Meeting Date: October 24, 2018
Subject: Transportation Excellence Awards

RECOMMENDED ACTION:
RECEIVE the call for nominations for the 18th annual Transportation Excellence awards to honor individuals, businesses, groups or projects for their efforts to improve the transportation system in Monterey County.

SUMMARY:
Transportation Agency would like to encourage and appreciate efforts made by Monterey County residents, businesses and employees to improve transportation in Monterey County by awarding Transportation Excellence Awards. Staff encourages Board members to submit nominations, which are due by December 7, 2018. The awards ceremony will take place during the regular January 23, 2019 Transportation Agency Board meeting.

DISCUSSION:
Transportation Agency for Monterey County would like to show its appreciation to the local community for its outstanding efforts to improve transportation in Monterey County. The program has award categories for individuals, businesses/groups, programs or projects. Examples of potential awards include but are not limited to:

- Transportation employees who excel at their jobs and go the extra mile to promote the most efficient use of the transportation system. Innovative activities that promote more efficient use of the local transportation network.
- Citizens or organizations that have made significant efforts to inform and educate the public about transportation issues.
- Successful efforts to improve transit services and encourage the use of alternatives to driving alone.

Board members are encouraged to distribute nomination forms and nominate projects, groups or individuals to be recognized for their contributions to transportation in Monterey County.
The nomination form is attachment 1 and is also available on the Transportation Agency website. The form can be mailed to Transportation Agency offices or faxed to the attention of Theresa Wright. The deadline for nominations is December 7, 2018. The Transportation Agency Executive Committee will select the awards recipients at its January meeting.

- Transportation Excellence Award Nomination Form
Awards Program Nomination form (Please fill out form completely)

1. Name of Nominee
Give name and address of individual (provide title), firm, group, or organization.
Nominee:

Category: (circle one)
Individual  Business/Group  Program  Project
Address:  Email:  
City:  Zip  Phone:  
If Nominee is a firm, group or organization, provide contact name:
Title:  Phone:  
Email:  

2. Description:
Describe the individual, business, group, program or project that is being nominated. Include any specific
information that may apply, such as the number of people who worked on the project, number of hours spent
on the project, number of people served or affected, cost to those served, and annual cost of operation.
Indicate whether the nominee is a volunteer or paid. Enclose any photographs or other materials that will
contribute additional information to the nomination. Use extra pages as needed.

RECOMMENDED ACTION:

Monterey County Regional Conservation Investment Strategy RFP
1. **APPROVE** Request for Proposals for the Monterey County Regional Conservation Investment Strategy, subject to counsel approval;

2. **AUTHORIZE** staff to publish the RFP, and return to the Board of Directors with a recommendation for approval of a consultant; and

3. **APPROVE** the use of funds from the approved project budget for this contract in an amount not-to-exceed $328,150.

SUMMARY:
This request for proposals will seek bids from qualified consultants to assist the Agency with the Monterey County Regional Conservation Investment Strategy.

FINANCIAL IMPACT:
The total project budget is $424,500, with $375,810 funded by the 2018 Senate Bill 1 Caltrans Adaptation Planning Grant and $48,690 local match funded by Measure X.

DISCUSSION:
In September, 2016 the State created a pilot program for the development of Regional Conservation Investment Strategies. This program was modified in 2017 to expand its reach to transportation infrastructure agencies. The Transportation Agency recently received a $375,810 grant from the Caltrans Adaptation Planning grant program to develop the Monterey County Regional Conservation Investment Strategy. The Transportation Agency is matching this grant with $48,690 of Measure X funds from the Habitat Management / Advance Mitigation program. The receipt of these grant funds leverages the Measure X funds over seven times.

The *Monterey County Regional Conservation Investment Strategy* (RCIS) will assess the
vulnerability of species and habitat to climate change related stressors and pressures (drought, wildfire, and landslides, among others); develop conservation strategies to improve resiliency from the identified stressors; and define a framework to finance the implementation of these conservation strategies as compensatory mitigation from new transportation improvements. The RCIS will further consider the conservation benefit of preserving working land for agricultural uses. The types of conservation strategies that are eligible to be included in an RCIS, which can then be turned into mitigation credits, will both directly and indirectly contribute to the climate resiliency of Monterey County’s transportation infrastructure. Some examples of potential conservation strategies that could be identified through the RCIS process include:

- Wildlife crossings under or over State highways and highly travelled regional corridors, such as the Scenic State Route 68 between Monterey and Salinas, to preserve and improve habitat connectivity while reducing animal-vehicle conflict points;
- Wetlands protection and restoration that protects transportation infrastructure from the effects of flooding and storm water impacts, such as State Route 156 in north Monterey County; and
- Land acquisition for species and habitat restoration and conservation (including preservation of agricultural lands) that results in more drought-tolerant and healthy habitat that in turn protects nearby infrastructure from climate-related events such as wildfires and landslides.

With the passage of Senate Bill 1 and Measure X, Monterey County’s self-help transportation sales tax measure, the Transportation Agency for Monterey County has habitat mitigation needs for numerous regional transportation improvements in corridors that are highly constrained by environmental factors, with some projects lying within the coastal zone. This presents an opportunity to develop the Monterey County Regional Conservation Investment Strategy to identify conservation strategies with co-benefits to transportation infrastructure climate resiliency and public safety, and then implement those strategies as advance mitigation for the transportation improvements.

Currently, transportation project mitigation is conducted on a project-by-project basis. However, for long-lead projects in sensitive areas, such as the State Route 156 project in north Monterey County, opportunities to negotiate mitigation and purchase property under the traditional process can take many years, and the project may still have impacts to certain habitat and species that are unavoidable. Meanwhile, escalating land values over time will only add to project costs, while land acquisition negotiations can delay project delivery. Furthermore, the availability of properties that are appropriate for mitigation can be severely limited by habitat type and what land might be available now may be lost in the near future due to degradation or other non-transportation development.

With the Monterey County Regional Conservation Investment Strategy, the Transportation Agency is seeking to initiate early adaptation and mitigation planning, and this Request for Proposals is to select a consulting firm to assist with the development and preparation of the program. The timeline for the Request for Proposals is as follows:

<table>

- Monterey County Regional Conservation Investment Strategy RFP - Scope of Work
ATTACHMENT A
SCOPE OF WORK

OVERALL PROJECT OBJECTIVES:
The completed Monterey County Regional Conservation Investment Strategy planning document will provide the following:

1. Inventory the available data sources for species and habitat, and describe the existing wildlife connectivity and linkages;
2. Develop a climate change vulnerability assessment of species and habitat to climate change related stressors and pressures (drought, wildfire, and landslides, among others);
3. Develop conservation strategies to improve resiliency from the identified stressors, including identifying the benefits to transportation infrastructure;
4. Identify mitigation needs of regional transportation improvements; and
5. Prepare for implementation by identifying areas for compensatory mitigation for impacts to species and natural resources, and incorporate the results of the study into the plans and designs of transportation infrastructure projects to improve climate resiliency.

TASKS & DELIVERABLES

1. Project Design, Management, Stakeholder Coordination & Meetings

Task 1.1 – TAMC, Consultant, & Caltrans Coordination

- Monthly to bi-monthly project team meetings with consultant and stakeholders, including Caltrans District 5, to ensure effective communication and that the project remains on time and within budget.

- Responsible Party: TAMC / Consultant

<table>
<thead>
<tr>
<th>Task</th>
<th>Deliverable</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1</td>
<td>Monthly meeting notes</td>
</tr>
</tbody>
</table>

2. Public Outreach

Task 2.1 – Stakeholder Analysis

- Determine interested and effect parties, including governmental agencies, community groups, business groups, and organizations conducting conservation activities in Monterey County.

- Responsible Party: TAMC / Consultant
Task 2.2 – Online Outreach

- Create a project website with project information, announcements, and comment box for the public to submit feedback. The website will be a resource for communicating project information and receiving public comments.

- Target outreach to solicit public input from citizens unable to attend community workshops or presentations with an interactive online project forum.

- Responsible Party: TAMC / Consultant

Task 2.3 – Stakeholder Meetings

- Meet and work with local boards and councils, community groups, and business groups. Solicit feedback from stakeholders.

- Responsible Party: TAMC / Consultant

Task 2.4 – Presentation #1 to Board of Directors

- Presentation to introduce the Regional Conservation Investment Strategy plan to the TAMC decision-making body, define the scope of the plan, introduce the project website, and solicit feedback from the Board and public about the plan.

- Responsible Parties: TAMC / Consultant

Task 2.5 – Community Workshop

- This workshop will present substantial draft findings of the plan to the community and solicit feedback from the public about the plan findings. Public comments will be used to help finalize the conclusions and recommendations.

- Responsible Parties: TAMC / Consultant

Task 2.6 – Presentation #2 to Board of Directors

- Present a substantial draft finding of the plan to the community and solicit final feedback from the TAMC Board and public about the plan findings.

- Responsible Party: TAMC / Consultant

<table>

2.3 Presentation materials, meeting notes, and stakeholder feedback

2.4 Presentation materials, meeting notes, and public / Board feedback

2.5 Workshop, post-workshop summary, and public feedback

2.6 Presentation materials, meeting notes, and public / Board feedback

3. Background & Introduction

Task 3.1 – Consultant Kick-off Meeting

- The Transportation Agency for Monterey County will hold a consultant team kickoff meeting, with Caltrans District staff, to discuss the project scope of work, approach, consultant and agency expectations, and timeline.

- Responsible Party: TAMC / Consultant

Task 3.2 – Draft RCIS Outline

- The consultant, in consultation with TAMC and Caltrans District staff, will develop an outline for the Regional Conservation Investment Strategy plan, incorporating the feedback of the stakeholder group, the requirements of the Fish and Game Code, CDFW’s Regional Conservation Investment Strategies Program Guidelines, and examples of other Regional Conservation Investment Strategy plans as guidance. An Overview and Background section will be developed and include a summary of the process, including the enabling legislation and purpose of the RCIS. It will also describe the conservation purpose and need for the RCIS, describe and explain a rationale for its boundary and describe stressors and pressures in the region.

- Responsible Party: Consultant

Task 3.3 – Applicable State and Local Requirements

- The State legislation for Regional Conservation Investment Strategy plans requires that a RCIS include provisions that the strategy will follow all applicable State and local requirements and will not preempt the authority of local agencies to implement infrastructure and urban development in local general plans. This section will briefly describe applicable State and local requirements and how the RCIS is consistent with or does not conflict with them.

- Responsible Party: Consultant

<table>
<thead>
<tr>
<th>Task</th>
<th>Deliverable</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1</td>
<td>Meeting summary</td>
</tr>
</tbody>
</table>
4. Develop RCIS Existing Conditions Report

Task 4.1 – Gather & Describe Data Sources

- The consultant will gather and document existing data. This effort will be coordinated with the stakeholder group to identify any other relevant data sources, specifically targeting geospatial data to incorporate into a comprehensive Geographic Information System (GIS) platform. Efforts will be focused on: land use, agriculture crops, habitat ranges of focal flora and fauna of sensitive species, infrastructure, hydrography, habitat connectivity, State of California and Federal protected areas, open space/conservation areas, sensitive resources, sea level rise and climate change data.

  - **Responsible Party:** Consultant

Task 4.2 – Gather & Incorporate Land Use Data

- The consultant will compile land use information for the Monterey County region. A snapshot of agricultural land use, including types and acres of crops grown and acres under Williamson Act protection or in non-renewal status, in addition to other land uses will also be compiled. This information will be used to develop a conservation strategy that considers important land uses, including working lands, in the strategy area.

  - **Responsible Party:** Consultant

Task 4.3 – Regional Planning Environment

- The consultant will prepare a description of existing or developing plans and programs that address the strategy area. A thorough understanding of the regional planning environment for the strategy area will be a critical component of the RCIS, to provide a context for the RCIS and to ensure that the RCIS incorporates and complements existing conservation strategies and development plans. This review will also allow for the identification of potential conflicts between planning efforts that need to be resolved.
through the RCIS or other means. Plans and programs will fall under the following categories.

1. Conservation Plans and Strategies. As required under the legislation, the RCIS will stipulate that the strategy will be consistent with and complement overlapping other habitat conservation efforts or state and federal recovery plans.

2. Development Plans. This section will include descriptions of city and county general plans and any relevant transportation plans, flood improvement plans, capital improvement programs, renewable energy plans, and other key infrastructure or development projects. The purpose of this description is to identify potential users of the RCIS, potential impacts to RCIS focal species and to identify and avoid potential conflicts between the conservation strategy and development plans. The RCIS will include consideration of (as required by the legislation):
   - Reasonably foreseeable development of infrastructure facilities.
   - Reasonably foreseeable projects in the strategy area, including, but not limited to, housing.
   - Reasonably foreseeable development to produce renewable energy

- Responsible Party: Consultant

Task 4.4 – Assessment of Conservation Elements, Land Cover & Habitats

- The consultant will identify the most significant resource conservation elements, land cover and habitats (e.g., natural communities, habitat and protected areas) in the region to be included in the RCIS; assemble data; and map the conservation elements.

- Responsible Party: Consultant

Task 4.5 – Describe Habitat Connectivity & Linkages

- The California Department of Transportation and CDFW commissioned the California Essential Habitat Connectivity Project, which includes a Statewide Essential Habitat Connectivity Map. The RCIS will incorporate this information into the planning document. Other relevant plans will be identified and incorporated, as necessary.

- Responsible Party: Consultant

Task 4.6 – Draft Existing Conditions Report

- The consultant will prepare a draft Existing Conditions report, including all tables and figures, for TAMC and stakeholder group to review.

- Responsible Party: TAMC / Consultant
### Task 5.1 – Identify Focal Species

- Identify the proposed focal species and valuable resource conservation elements (e.g., natural communities, habitat and protected areas) to be included in the RCIS. Assemble focal species data and map the focal species and conservation elements. This task will include a discussion of the strategy and approach to identification of focal species with input from TAMC and Caltrans District staff, and feedback from the stakeholder group.

  - **Responsible Party:** Consultant

### Task 5.2 – Conduct Conservation Gap Analysis

- The consultant will conduct a gap analysis for natural communities and focal species in the strategy area. A summary of all approved protected areas and mitigation banks or conservation banks in the strategy area will be developed and mapped.

  - **Responsible Party:** Consultant

### Task 5.3 – Develop Climate Change Vulnerability Assessment

- The consultant will conduct a climate change vulnerability assessment for the identified focal species. The RCIS will include a vulnerability index for each focal species to help determine which focal species are most at risks based on the species’ ability to respond to changes in climate. AB 2087 requires a summary of historic, current, and projected future stressors and pressures in the strategy area, including climate change vulnerability, on the focal species, habitat and other natural resources. Stressors in the strategy area include landscape fire, invasive species, land use conversion, and urbanization, which are important stressors currently affecting focal species and anticipated to continue in the future. Major threats and stressors will be incorporated into the conservation analyses.
• **Responsible Party:** Consultant

**Task 5.4 – Develop Conservation Goals & Objectives**

- The consultant, with coordination from TMC, Caltrans District staff, and the stakeholder group, will identify conservation goals and measurable objectives for the focal species and important conservation elements identified in the RCIS that address or respond to the identified stressors and pressures on focal species and other conservation elements.

- **Responsible Party:** TMC / Consultant

**Task 5.5 – Identify Conservation Priorities & Conservation Actions**

- The consultant will compile conservation priorities to address the focal species and other priorities identified during the planning process.

- The consultant will identify conservation actions and habitat enhancement actions that could achieve the conservation goals and objectives. Examples of conservation actions include protection through easement or fee acquisition and habitat restoration, and examples of habitat enhancement actions include wildlife corridor projects or conservation activities on currently protected lands, as described in AB 2087. The RCIS will also consider and describe the conservation benefits of preserving working lands for agricultural uses, as required by the Fish and Game Code. The benefits of each conservation action to transportation infrastructure will also be assessed and documented. In addition, potential green infrastructure solutions that provide a cost-effective, resilient approach to managing wet weather impacts and provide community benefits will also be assessed and documented for their co-benefits.

- The consultant will closely coordinate with staff from TMC and Caltrans District, and the stakeholder group, to develop the conservation priorities in a manner that prevents or alleviates conflicts with other plans. One workshop with stakeholders will be held to incorporate local expertise and receive feedback.

- **Responsible Party:** TMC / Consultant

**Task 5.6 – Develop Monitoring & Adaptive Management Framework**

- Section 1856(b) of the Fish and Game Code requires that Regional Conservation Investment Strategy plans include the following:

  1. An adaptive management and monitoring strategy for conserved habitat and other conserved natural resources.

  2. A process for updating the scientific information used in the strategy, and for evaluating the effectiveness of conservation actions and habitat enhancements
identified in the strategy offsetting identified threats to focal species and to achieve the strategy’s biological goals and objectives, at least once every ten years.

3. Identification of a public or private entity that will be responsible for the periodic evaluation and for updating the strategy periodically to incorporate the best available scientific information and analyses.

4. A description of how the strategy’s conservation goals and objectives provide for adaptation opportunities against the effects of climate change for species covered by the strategy.

- During this process of developing the Regional Conservation Investment Strategy plan, TAMC, Caltrans, and the stakeholder group will identify an entity that will be responsible for periodic evaluation and updating of the RCIS. The revised and expanded monitoring and adaptive management strategy will be developed as a framework strategy focused on the entire RCIS, not particular focal species. Mitigation Credit Agreements are required to have a specific adaptive management and monitoring strategy directed at focal species (the species for which mitigation credits are requested) and suites of mitigation sites. The adaptive management and monitoring framework in the RCIS will provide a framework to support the Mitigation Credit Agreements that may be developed in the strategy area.

- **Responsible Party:** Consultant

**Task 5.7 – Prepare Assessment of Consistency with Other Plans**

- Under the Fish and Game Code, Regional Conservation Investment Strategy plans are required to provide an explanation of how the strategy is consistent with or complements any draft or final natural community conservation plan, habitat conservation plan, recovery plan, and other conservation or recovery plan that overlaps with the RCIS area. The RCIS will describe how it is consistent with and complements other pertinent plans identified during the RCIS preparation. This section will describe potential conflicts identified with plans that are existing or in preparation.

- **Responsible Party:** Consultant

**Task 5.8 – Develop Draft RCIS Conservation Strategy**

- The draft Regional Conservation Investment Strategy report will be developed including maps, all tables and figures, for TAMC and stakeholder group review.

- **Responsible Party:** TAMC / Consultant

6. Develop RCIS Implementation

Task 6.1 – Describe Project-Level Use of the RCIS

- The RCIS will include a description of how it can be used for project-level planning and permitting. This is expected to facilitate project permitting, in that regulatory agencies are more likely to accept projects that include a mitigation strategy that is consistent with the RCIS.

- Responsible Party: Consultant

Task 6.2 – Identify Mitigation Needs of Regional Transportation Improvements

- Develop an inventory of species and habitat that will potentially be displaced from the construction of regional transportation improvements, and identify potential conservation actions that could serve as mitigation for these impacts, including maps of the proposed improvements and impacted areas requiring mitigation. At a minimum, the following transportation improvements will be considered:
  - Highway 68 Safety & Traffic Flow – Monterey to Salinas
  - State Route 156 Safety Improvements
  - US-101 Safety Improvements – South County
  - Marina-Salinas Multimodal Corridor
  - Highway 1 Traffic Relief – Busway
  - Holman Highway 68 Safety & Traffic Flow
  - Fort Ord Regional Trail and Greenway
  - G12 Corridor
Task 6.3 – Describe Advance Mitigation Planning

- This section of the RCIS will describe the relationship between the RCIS and advance mitigation planning. The RCIS will provide a basis for the development of Mitigation Credit Agreements. Separate Mitigation Credit Agreements (not included in this scope of work) or templates such as a conservation easement template could be developed to append to the RCIS to facilitate advance mitigation.

Task 6.4 – Update Implementation Structure

- An appropriate framework for implementing the RCIS will be developed in conjunction with the stakeholder group. As part of the framework, the RCIS will identify the relevant state and federal regulatory policies (such as the Endangered Species Act, California Endangered Species Act, the Clean Water Act, CEQA, NEPA, etc.) and a brief description as to how regulatory agencies and project proponents can use the RCIS to align with regulatory requirements.

Task 6.5 – Complete RCIS Implementation Strategy

- The draft RCIS Implementation Strategy chapter will be prepared including all tables and figures.

7. Prepare Draft & Final RCIS

Task 7.1 – Admin Draft RCIS

- Compile outcomes of public workshops, presentations, and online outreach efforts, graphics, and draft plan chapters. Conclude findings on recommendations for the Regional Conservation Investment Strategy.

- Responsible Party: TAMC / Consultant

Task 7.2 – Draft RCIS

- Revised Administrative Draft Plan incorporating comments from TAMC and Caltrans District staff.

- Responsible Party: TAMC / Consultant

Task 7.3 – Final RCIS

- Completed document of planning findings and conclusions.

- Responsible Party: TAMC / Consultant

Task 7.4 – Board of Directors Approval

- Present final Regional Conservation Investment Strategy plan to the TAMC Board of Directors for adoption.

- Responsible Party: TAMC / Consultant

Task 7.5 – Develop Interactive Website

- The consultant will compile priority data in a consistent format that can be uploaded for interactive use in an Internet Web portal and that would allow stakeholders to generate queries of regional conservation values within the strategy area. To meet this legislative requirement, an interactive web portal will be explored and recommended options based on functionality, ease of use and cost will be identified. This will help ensure stakeholders have an opportunity to explore the data and conservation priorities in the RCIS.

- Responsible Party: Consultant

Memorandum

To: Board of Directors  
From: Christina Watson, Principal Transportation Planner  
Meeting Date: October 24, 2018  
Subject: State Legislative Update & Draft 2019 Program

RECOMMENDED ACTION:
RECEIVE update on state legislative issues and APPROVE the draft 2019 program for distribution to Committees for comment.

SUMMARY:
The Executive Committee provided input for the draft 2019 legislative program.

FINANCIAL IMPACT:
The qualification of Proposition 6 on the November ballot is the most important issue facing transportation users in California. 2017's Senate Bill (SB) 1 created a valuable opportunity to deliver Measure X and other priority projects in Monterey County by providing matching funds for local safety, road repair and congestion relief projects over the next 30 years. Proposition 6 would delay or delete these projects by repealing SB 1, and it would require majority voter approval (via ballot propositions) for the California State Legislature to impose, increase, or extend fuel taxes or vehicle fees in the future.

DISCUSSION:
On October 3, 2018, the Executive Committee received an update on state legislative activities and provided input on priorities for the Agency for 2019.

Web Attachment 1 is the end-of-year state legislative update from legislative analyst Gus Khouri, and Web Attachment 2 is the updated bill list as of October 3, 2018. Bills that died prior to the previous report in August have been deleted from the list. Assembly Bill (AB) 1395 (Chu), which TAMC opposed, because it would have resulted in less funding for litter cleanup in Monterey County, has died. Several bills that TAMC supported have been enacted, including AB 2249 (Cooley), which increases the threshold for informal bidding procedures to $200,000.

Attachment 1 is the draft 2019 legislative program, and Attachment 2 is the draft 2019 program,
showing changes from the 2018 program. The Executive Committee provided input on this draft program, directing staff to focus the program on those items that are most likely to arise in the 2019 legislative session. If bills arise on issues not addressed in this program but otherwise of interest to the Board, staff will bring those items to the Executive Committee and Board for action.

Staff will present the draft program and solicit input from the Rail Policy Committee, Bicycle and Pedestrian Facilities Advisory Committee, and Technical Advisory Committee in November 2018. Staff will also meet with partner agencies locally and statewide to discuss items for the program. The Executive Committee will then receive an update and discuss the final draft program in January 2019, and recommend adoption by the Board in January.

- [Final 2018 bill list](#)
DRAFT 2019 Legislative Program: State Priorities

1S. Preserve funding for transportation projects, support the constitutional protection of all transportation funding resources, maximize formula funding to regions, and preserve regional discretion and priority-setting.

2S. Pursue competitive grant or bond funding for highway safety, traffic congestion relief, trade corridors, passenger rail, and public transportation for Monterey County projects.

3S. Support a consistent definition of “disadvantaged communities” among all funding programs to ensure that investments reflect economic and rural area considerations.

4S. Monitor efforts to modernize efficiency standards relating to farebox recovery ratios under the Transportation Development Act and coordinate with the Monterey-Salinas Transit District to ensure efficiency standards do not compromise existing service.

5S. Support legislation that promotes transit-oriented development, complete streets, alternative commutes, multi-modal transportation, and active transportation projects.

6S. Support member agencies’ requests for state funding of regionally significant transportation projects and support partner agency legislative efforts as they interface with regional transportation priorities, when they are consistent with Transportation Agency for Monterey County priorities.
DRAFT 2019 Legislative Program: Federal Priorities

1F. Support stabilizing and increasing transportation infrastructure funding sources to avoid the bankruptcy of the federal highway and transit trust funds:
   1. Increase and index the gas tax to inflation.
   2. Explore innovative funding mechanisms, such as a pay-by-the-mile user fee and public private partnerships.
   3. Expand access to Transportation Infrastructure Finance and Innovation Act (TIFIA) loans.
   4. Remove procedural obstacles that impede expenditure of authorized federal funding.
   5. Support the return of directed federal funding for transportation priorities.
   6. Coordinate with military installations in Monterey County to seek funding for transportation projects with a nexus to those installations.

2F. Allow the California Environmental Quality Act (CEQA) to substitute for the National Environmental Policy Act (NEPA), without restrictions, and expand the definition of Categorical Exclusions, while retaining environmental protections.

3F. Support streamlining of federal rail funding and removal of funding barriers between commuter and intercity rail programs, with the goal of increasing passenger rail service for the traveling public.

4F. Support an adequate level of funding for Amtrak and support a fair share allocation to California for capital improvements and vehicle acquisition.

5F. Support efforts to change the update timeline for the Regional Transportation Plan from the current four years to eight years.

6F. Support member agencies’ requests for federal funding of regionally significant transportation projects and support partner agency legislative efforts as they interface with regional transportation priorities, when they are consistent with Transportation Agency for Monterey County priorities.
1S. Preserve funding for transportation projects, support the constitutional protection of all transportation funding resources, maximize formula funding to regions, and preserve regional discretion and priority-setting.

2S. Pursue competitive grant or bond funding for highway safety, traffic congestion relief, trade corridors, passenger rail, and public transportation for Monterey County projects.

3S. Support efforts to reauthorize Public Private Partnership authority, public tolling authority, and design-build authority, expand mode eligibility, and allow for regional control of such projects.

5S. Support legislation to expand the Capitol Corridor Joint Powers Authority to Salinas, and to expand the Los Angeles-San Diego Rail Corridor Agency (LOSSAN) to San Francisco.

7S-1S. Support legislation that promotes transit-oriented development, complete streets, alternative commutes, and active transportation projects.

9S. Work with partner agencies to reach agreement on proposals for California Environmental Quality Act (CEQA) reform, while retaining environmental protections.

11S. Support efforts to develop alternative funding sources to offset the reduction in gas tax revenues and ensure that any pay-by-the-mile funding is equitably assessed and distributed.

12S-3S. Support a consistent definition of “disadvantaged communities” among all grant funding programs to ensure that investments reflect economic and rural area considerations.

13S. Support measures to allow the California Department of Fish and Wildlife to allow Caltrans to adopt appropriate avoidance and mitigation measures to protect the Santa Cruz Long-Toed Salamander from potential impacts of the Highway 156 project.

14S. Support legislation that promotes transparency and access to information on rail transport of hazardous materials.

15S-4S. Monitor efforts to modernize efficiency standards relating to farebox recovery ratios under the Transportation Development Act and coordinate with the Monterey-Salinas Transit District to ensure efficiency standards do not compromise existing service. Support efforts to remove the Transportation Development Act’s Unmet Transit Needs hearing requirement if 100% of the TDA funds are already allocated to transit.
5S. Support legislation that promotes transit-oriented development, complete streets, alternative commutes, multi-modal transportation, and active transportation projects.

16S.6S. Support member agencies’ requests for state funding of regionally significant transportation projects and support partner agency legislative efforts as they interface with regional transportation priorities, when they are consistent with Transportation Agency for Monterey County priorities.
1F. Support stabilizing and increasing transportation infrastructure funding sources to avoid the bankruptcy of the federal highway and transit trust funds:
   1. Increase and index the gas tax to inflation.
   2. Explore innovative funding mechanisms, such as a pay-by-the-mile user fee and public private partnerships.
   3. Expand access to Transportation Infrastructure Finance and Innovation Act (TIFIA) loans.
   4. Remove procedural obstacles that impede expenditure of authorized federal funding.
   5. Support the return of directed federal funding for transportation priorities.
   4-6. Coordinate with military installations in Monterey County to seek funding for transportation projects with a nexus to those installations.

2F. Allow the California Environmental Quality Act (CEQA) to substitute for the National Environmental Policy Act (NEPA), without restrictions, and expand the definition of Categorical Exclusions, while retaining environmental protections.

3F. Support streamlining of federal rail funding and removal of funding barriers between commuter and intercity rail programs, with the goal of increasing passenger rail service for the traveling public.

4F. Support an adequate level of funding for Amtrak and support a fair share allocation to California for capital improvements and vehicle acquisition.

5F. Support efforts to change the update timeline for the Regional Transportation Plan from the current four years to eight years.

6F. Support member agencies’ requests for federal funding of regionally significant transportation projects and support partner agency legislative efforts as they interface with regional transportation priorities, when they are consistent with Transportation Agency for Monterey County priorities.
Memorandum

To: Board of Directors
From: Rich Deal, Principal Engineer
Meeting Date: October 24, 2018
Subject: Request for Proposals: On-Call Roundabout Design Peer Review

RECOMMENDED ACTION:
On-Call Roundabout Design Peer Review Request for Proposals (RFP)

1. APPROVE Request for Proposals for On-Call Roundabout Design Peer Review, subject to counsel approval;

2. AUTHORIZE staff to publish the RFP, and return to the Board of Directors with a recommendation for approval of a consultant; and

3. APPROVE the use of funds from approved project budgets for this contract for an estimated amount not to exceed $640,000.

SUMMARY:
This request for proposals will seek bids from qualified consultants to assist the agency with independent design review for roundabout projects currently being considered and prepared by Caltrans, including the SR 156 / Castroville Boulevard Interchange Project and proposed roundabout alternatives that may be included in the environmental determination for the SR 68 Scenic Corridor Project.

FINANCIAL IMPACT:
The costs for roundabout design peer reviews will be covered by Measure X funds included in individual project's development budget. The consultant selected to perform roundabout design peer reviews will be issued task orders to perform activities described in the attached scope of work to conduct independent design review for considering potential alternatives in the environmental review of roundabout projects and at key points throughout the design process for approved roundabout projects.

The total not to exceed amount of the contract is estimated to be $640,000 based on staff's independent cost estimate. The average cost for independent peer review per roundabout project is expected to be
DISCUSSION:
The Transportation Agency for Monterey County is the responsible agency for implementing two anticipated regional projects on the State Highway System, for which Caltrans is designated as the lead agency and will prepare designs for roundabouts that are being considered or are approved in each project.

The SR 156 / Castroville Boulevard Interchange Project has already received environmental clearance and approval by Caltrans. The project includes three roundabouts in its design, one for eastbound ramp intersection, one for the westbound ramp intersection, and one for the new Castroville Boulevard alignment intersection with the old Castroville Boulevard.

The SR 68 Scenic Corridor Project study proposes nine roundabouts included in the preferred alternative, which would replace the existing traffic signals along the corridor from Salinas to Monterey. This project is currently undergoing preliminary engineering and environmental review. Both projects will be designed by Caltrans. The consultant selected to perform roundabout design peer reviews is anticipated to conduct independent design review for all twelve roundabout included in these two projects at key points throughout the environmental review and design process.

The proposed schedule for the Request for Proposals is as follows:

Attached is the draft scope of work for this RFP.

ATTACHMENTS:

- Roundabout Peer Review Scope of Work
Scope of Work

ON-CALL ROUNDBOUGHT DESIGN PEER REVIEW

The Consultant will provide on-call roundabout design peer review by task order. The consultant may be asked to perform any or all the tasks below. There are currently two separate TAMC-sponsored projects that will be prepared by Caltrans. TAMC and Caltrans have a strong, positive working relationship and share the goal of delivering the safe, efficient roundabout projects. Therefore, the Consultant must be able to work effectively and efficiently with both TAMC and Caltrans staff. The Consultant will support the project effort by evaluating roundabout concepts and optimizing roundabout designs. Consultant tasks may include independently evaluating the operational analysis with simulations to confirm roundabout geometrics, preparing presentation graphics for public meetings, reviewing plans, specifications, and estimates (PS&E) submittals, and preparing independent estimates of probable costs. While there may be more roundabout designs to review, there are two anticipated task orders that include evaluation of roundabouts for the following projects:

1) SR 156 / Castroville Boulevard Interchange
   This project has environmental clearance and is currently under design by Caltrans. The project includes two roundabout intersections at the new Castroville Boulevard ramp termini and one roundabout intersection where the new Castroville Boulevard alignment joins the old Castroville Boulevard alignment.

2) SR 68 Scenic Corridor
   This project has a completed corridor study and Project Study Report with a preferred alternative that replaces nine existing traffic signals along SR 68 with nine roundabouts. The peer review effort will focus on optimizing roundabout geometry to define the area of potential affect for each intersection. If the preferred alternative is selected and approved, then the consultant will support the Caltrans design effort.

The Consultant will independently evaluate each of these potential operational conflict points for each roundabout:

- “Fast Path” adequacy,
- Truck turn capability,
- Pedestrian and bicycle safety, access and circulation,
- Driver, pedestrian and bicycle rider sight triangles,
- Entry view angles for decision making and capacity,
- Entry and exit path overlaps,
- Geometry for high speed approaches,
- Lane widths, channelization and lane transitions,
- Profiles and cross slopes, signing and striping adequacy,
Task 1: Project Initiation and Project Management

Task 1.1 Conduct Kick-Off meeting at TAMC offices to define roles, schedule and deliverables. Conduct monthly project development team meetings. Coordinate with TAMC and Caltrans.

Task 1.2 Provide Project Management for each project with separate files and invoicing by individual project.

Task 1.3 Review Project Information and Traffic Data

DELIVERABLES: Meeting agendas, minutes, project schedules, monthly invoices.

Task 2: Roundabout Evaluation and Concept Design Review

Task 2.1 Perform fatal flaw traffic operations analysis and optimize inscribed circle diameter, lane requirements, approach angles, splitter island lengths, center island configurations, and exit designs.

Task 2.2 Perform fatal flaw capacity assessment and identify potential design exceptions.

Task 2.3 Perform fatal flaw evaluation of roundabout geometry, vehicle fast path, entry overlap, high speed entry, truck and bus turning movements, pedestrian accessibility, and bicycle circulation.

Task 2.4 Perform review of signing and pavement markings. Perform review of guide signing for advance lane assignments and driver decision making.

Task 2.5 Prepare VISSIM roundabout simulations and optimize roundabout designs.

Task 2.6 Prepare a comparison of performance measures for traffic flow and safety.

Task 2.7 Prepare presentation and graphics and participate at public meetings,

DELIVERABLES: Evaluation reports, VISSIM simulations, design optimizations, presentation graphics, participation at public meetings.

Task 3: PS&E Review

Task 3.1 Perform a peer review of plans, specifications and estimate for 35%, 65%, 95% and final submittals, including layouts, grading, construction details, signing, pavement markings, profiles and cross slopes, construction staging and traffic handling, lighting, landscaping.

Task 3.2 Perform independent estimate of probable costs.

DELIVERABLES: Design comments, estimate of probable costs
Memorandum

To: Board of Directors
From: Elouise Rodriguez, Senior Administrative Assistant
Meeting Date: October 24, 2018
Subject: TAMC Committee Minutes

RECOMMENDED ACTION:
ACCEPT draft minutes of the Transportation Agency Committees:
- Executive Committee - October 3, 2018
- Technical Advisory Committee - October 4, 2018
- Rail Policy Committee - No meeting this month
- Bicycle and Pedestrian Facilities Advisory Committee - No meeting this month
- Excellent Transportation Oversight Committee - No meeting this month

ATTACHMENTS:
- Executive Committee Draft Minutes of October 3, 2018
EXECUTIVE COMMITTEE MEETING

Members are: John Phillips (Chair),
Robert Huitt (1st Vice Chair), Luis Alejo (2nd Vice Chair),
Alejandro Chavez (Past Chair),
Simon Salinas (County representative), Ed Smith (City representative)

Wednesday, October 3, 2018

*** 9:00 a.m. ***
Transportation Agency Conference Room
55-B Plaza Circle, Salinas

1. CALL TO ORDER: Chair Phillips called the meeting to order at 9:00 a.m.
Staff present: Hale, Muck, Rodriguez, Watson and Zeller.
Others present: Agency Counsel Kay Reimann and Gus Khouri, Legislative Consultant.

2. PUBLIC COMMENTS: None.

3. CONSENT AGENDA:
   On a motion by Committee member Salinas and seconded by Huitt, the committee voted
   5-0 to approve the consent agenda.

3.1 Approved minutes from the Executive Committee meeting of September 5, 2018

END OF CONSENT
4. **STATE LEGISLATIVE UPDATE & DRAFT 2019 PROGRAM:**
The Committee received a state legislative update and discussed topics for the 2019 draft legislative program.

Gus Khouri, Khouri Consulting, provided a summary of the 2018 legislative session, which ended on August 31. Mr. Khouri reviewed the bill matrix, noting that September 30 was the deadline for the Governor to act on all bills.

Christina Watson, Principal Transportation Planner, presented the draft 2019 legislative program. The Committee provided direction to staff to focus the program and limit it to items that are most likely to arise during the 2019 legislative session, noting that if any bill is proposed that is not directly related to a priority on the program, that staff should bring it to the Committee and then to the Board for action.

5. **TAMC DRAFT AGENDA FOR SEPTEMBER 26, 2018**
Executive Director Hale reviewed the highlights of the draft regular and consent agenda for the TAMC Board meeting of October 24, 2018. She noted that:

- The Board will hold a closed session regarding rail acquisition.
- The Board will receive an update on:
  - Transportation Agency Role in Fort Ord Reuse Authority Transition Planning;
  - Request for Proposals: Regional Conservation Investment Strategy; and
  - Request for Proposals: Design Support for Roundabout Projects.

6. **ANNOUNCEMENTS**
None this month.

7. **ADJOURNMENT**
Vice Chair Huitt adjourned the meeting at 10:43 a.m.
Memorandum

To: Board of Directors
From: Elouise Rodriguez, Senior Administrative Assistant
Meeting Date: October 24, 2018
Subject: TAMC Correspondence

RECOMMENDED ACTION:
RECEIVE Transportation Agency for Monterey County correspondence for October 2018.
