City of Seaside

Fort Ord Regional Trail & Greenway

Draft Environmental Impact Report
Project Background

28-mile regional trail
Environmental Impacts and Mitigations

- Mitigation measures to reduce impact:
  - Habitat mitigation and monitoring
  - Biological resources avoidance and minimization
  - Construction best management practices
  - Invasive weed management
  - Wetland restoration
  - Native American resources monitoring

Draft EIR public comment period closes January 3, 2020
Project Alternatives

- **No Build**
  - No trail / continued reliance on cars
  - Lower bio impact / lower cost / greater vehicle-bike conflicts / less accessible
- **Increase use of existing roadways**
  - Lower cost / lower visual impact / greater vehicle-bike and vehicle-ped conflicts
- **Substitute at-grade crossings**
  - Lower wetland impact / better separation from existing walking path
- **Frog Pond Wetland Preserve Northerly Alignment**
Trail Width

GREENWAY (up to 150’)

2’  8’ - 12’  2’

16’

GREENWAY (up to 150’)

OVERHEAD CLEARANCE 12’ ANN.
